General in Front After Vote Fight

Leads Senator Taft 514-486; Warren, Stassen Hold Keys

By JACK BELL

CONVENTION HALL, Chicago—(AP)—Gen. Dwight D. Eisenhower surged into the lead today in his slam bang battle with Sen. Robert A. Taft for the Republican presidential nomination.

Helped by other presidential aspirants, Eisenhower bowled over Taft in two vital preliminary victories Wednesday night in the seating of contested delegations from Georgia and Texas.

Near Victory

By the strength his forces displayed, the five-star general of the Army appeared to have pulled

May Ballot on Nominee Tonight

Late advices from convention headquarters indicated that balloting for the nominee may be held tonight. Convention managers were mapping out a schedule which left that possibility.

Late press dispatches also indicated a move to Gen. MacArthur as a compromise candidate. Some of Senator Taft's supporters were saying privately that MacArthur might be a good man if it developed; that Taft could not make the grade; Taft's top aides were insisting, however, that there was no reason yet to question that Taft could make it.

Within striking distance of the first presidential nomination for a professional military man since Ulysses S. Grant won the prize and the presidency in 1868.

Taft fought a valiant rear guard action against the seating of pro-Eisenhower delegations from the two states.

But he lost Georgia by a 607 to 531 vote. It was the first time a GOP convention had overruled its Credentials committee. That Taft-dominated group had recommended, 28 to 22, the seating of a delegation heavily weighted for the Ohioan.

The Eisenhower allies developed such power that Taft's supporters elected not to oppose the seating of a Texas delegation favoring the general. Previously the committee had approved a pro-Taft group.

This made the new lineup in the Associated Press tabulation of delegates:

Eisenhower 514, Taft 486, others 110, uncommitted 96.

This picture could shift quickly on the first nomination ballot, when the uncommitted must join the ranks of those publicly tabbed for one candidate or another.

Vote Friday

But this slow-moving convention seemed unlikely to get around to any such showdown until Friday. Delegates faced action today on the party platform, followed by the tedious business of nominating candidates.

Gov. John S. Fine of Pennsylvania cut down the uncommitted list sharply by a belated and widely forecast announcement that he is supporting Eisenhower.

The 52 to 38 poll of his delegates.

GOP Platform Slashes At Truman Corruption, Spending, War Policy

By EDWIN B. HAAKINSON

CHICAGO—(AP)—Republicans today accused the Truman administration of sickening corruption and of shielding "traitors to the nation in high places."

This blistering attack came in the campaign platform handed to the GOP national convention for expected approval during the day.

Slashing attacks on the "present administration's sordid record of corruption" overshadowed hard fought compromises on the foreign policy, national defense and the civil rights planks.

Only the "civil rights" plank dealing with the touchy issues of racial discrimination—caused some fears of a possible floor fight.

Experts Okay

Sen. Eugene D. Millikin of Colorado, chairman of the group that shaped the campaign document, told a reporter he expects quick convention approval.

Even so, this plank was shaped to bridge North-South differences. It is toned down, reflecting a stiff committee fight, from the 1948 statement which backed whatever laws needed to end job discrimination against Negroes and other minorities.

This time the promise was for federal legislation to deal with racial discrimination in states which failed to. Whether this should be compulsory or voluntary was not stated.

Okayed By Both

In general, the released foreign policy and defense planks had been approved in advance by Sen. Robert A. Taft of Ohio and Gen. Dwight D. Eisenhower, the two top contenders for the party's presidential nomination.

These planks belabored the Democrats on foreign policy, saying "they swing erratically from timid appeasement to reckless blunder."

The GOP document promised that Republicans will seek "an honorable just peace" that would bring hope to those now imprisoned under Communist domination.

More Air Power

On national defense, the platform promised a quick air power, "something Sen. A. Taft has stressed."

And then it balanced this, probably at suggestions from the Eisenhower camp, with a pledge for "simultaneous readiness of coordinated air, land and sea lanes, with all the necessary installations, bases, supplies and munitions, including atomic energy weapons."

All through the unusually long 6,000-word platform, the Republicans promised to clean house in government, cut costs and reduce waste, overlapping and bureaucracy.

Dixon Man's Brother Dies In Air Crash

A Dixon farmer was informed today that his brother, a naval commander stationed in Florida, had been killed with five others in an airplane crash near Albuquerque.

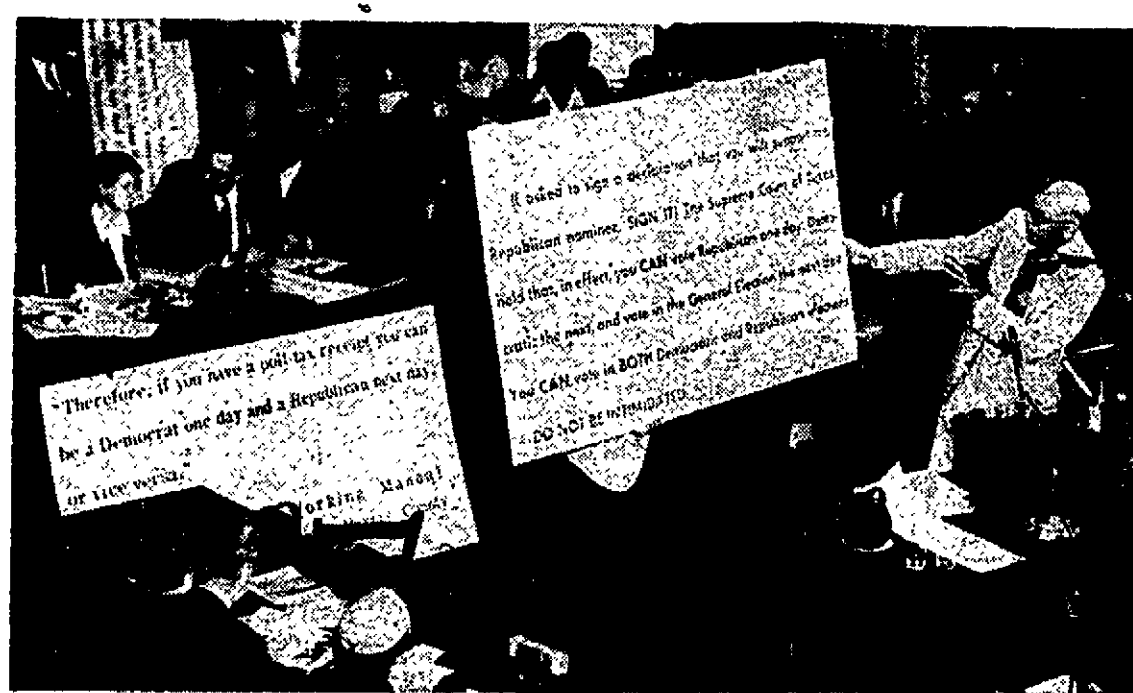

Robert McCracken, Rt. 2, in a phone call from his father in St. Louis, was informed that the wreckage of the plane which had carried his brother, Cmdr. Otto E. McCracken, 25, had been found Tuesday 200 feet from a mountain top.

The plane, which had taken off from Sanford, Fla., was believed to have crashed Monday.

Cmdr. McCracken, who had been in the navy for 16 years, is survived by his widow, Mabel, Sanford; two daughters, ages 8 and 6; two other brothers, John and Thomas, both of St. Louis, and his parents, Mr. and Thomas McCracken sr., also of St. Louis.

Funeral services are to be held Thursday with burial in Arlington National cemetery, Washington, D. C.

Dixon's TV Delegates See Trend for Ike, Some Hope for Compromise Candidate

By TOM REAY
Telegraph Staff Member

Dixon's TV delegates to the Republican National convention today seemed to have detected a boost in the presidential stock of Gen. Dwight Eisenhower.

Most of those contacted in a telephone survey by the Telegraph seemed bothered by the swing to the general. Many of the local partisans, most of them Taft supporters, were hopefully suggesting a deadlock with a darkhorse candidate—MacArthur, Warren or Sen. Knowland of California—emerging victorious.

Out of 25 Dixonites contacted, only one said he had not been following the convention. A major share of the group, about 20, had seen most of it on TV; others were radio fans.

All were asked the same question: Have you formed any opinion as to whom will be nominated for president?

Here are some of their answers: Harold Coffey, 313 Sherman av., said "It's Eisenhower all the way. Taft would be too easy for any Democratic candidate to beat."

William Archer, 416 E. Fourth st., said "I thought Taft had it ... but now, it certainly looked dubious last night."

Mrs. Robert Bollman, Rt. 1, Harmon, saw the possibility of a deadlock with the convention naming "a dark horse on the second or third ballot."

Mrs. Frederick Battle, 2014 First st., said she lived in a divided household but added that the "settling of the Georgia case shows that Eisenhower's stronger than people think."

Mrs. Victor Eichler, 623 Fellows st., said she was amazed at the actions of the delegates. "I don't know where the dignity and decorum is," she said, adding that it "looks like Eisenhower as they think he's the one person who can beat the Democratic candidate."

Mrs. John C. Duffy, Shore Acres, said she saw little indication by the delegates one way or the other. "It's too early now," she said, "but I think something will happen later on in the balloting."

Mary Mathias, in the county clerk's office at the courthouse, said what almost everyone else in the county

Snader's Mom Thrilled at TV Appearance

No one in Dixon got a bigger thrill out of Wednesday night's telecast of the Republican national convention than Mrs. Maude Snader, a patient at the Mansion nursing home, 403 E. Fellows st.

Mrs. Snader was looking for—and saw—her son, Lyle, on the TV screen many times during the evening.

Snader served as secretary of the convention Wednesday night. In that capacity he appeared often in front of the TV camera as roll calls and other convention business unfolded.

Mrs. Snader, 70 years old and bed-ridden, told The Telegraph this morning she enjoyed the evening thoroughly. She saw the show, along with other patients, on a set especially installed for the occasion by her son.

Snader, formerly of Dixon, is legislative assistant to Rep. Leo Allen of the 35th congressional district.

Snader has three brothers who live in Dixon, Harry, Carroll and Wayne. All were watching—and listening to—their brother in his convention appearance.

Oust Prison Warden After Bloody Riots

JACKSON, Mich., (AP)—Warden Julian N. Friable, 60-year-old retired Marine brigadier general, was ousted today from his job as head of Southern Michigan prison, scene of two bloody riots in recent weeks.

Corrections Commissioner Earnest C. Brooks made the announcement after conference with Gov. G. Mennen Williams at Lansing. Brooks said "the reason for the change is that Warden Friable has not succeeded in getting the prison under control after the April riot."

Haarbauer Named as Successor

Board Considers Changing Day of School Elections

Dr. Stirling Stackhouse resigned from the Dixon school board last night and W. E. Haarbauer was appointed by the board to serve in his place until the next school election.

Stackhouse's resignation was required by the fact that his legal residence has changed from Dixon and the area of school District 170 to Grand Detour. Board members must live in the district which they serve.

The board approved President M. M. Memler's appointment of Haarbauer, factory manager of the Reynolds Wire division of the National Standard Co. Haarbauer will assume his place on the board at the next meeting.

Resident Six Years

Haarbauer has been a Dixon resident for the past six years. He is married and has a daughter in second grade at South Central school.

A petition to change the day of school elections was placed on file after Francis (Hank) Henry had presented the petition and attempted to obtain an immediate vote on it.

The petition, signed by 36 Dixon merchants, asked that date of school elections be changed from the second Saturday in April to the first Tuesday. It is to be considered at the board's September meeting.

Must Be Fair

The board, including Henry, agreed to consider it at the later date after Memler said that members should have time to consider it from a legal standpoint and that they also "should be treated fairly and given enough time to consider it without acting on the spur of the moment."

In presenting the petition Henry said that the election day, coming on Saturday, detracts from business which is usually big on that day. He also said that it presents a hardship for businessmen to vote since their work in stores is greater on Saturdays.

Memler insisted that "in all fairness" he wanted more time to consider such change since he had received no previous information that it was going to be considered at the meeting.

Questions Delay

Henry said he didn't know what more Memler wanted to consider about the change.

"Possibly you (Memler) and Stackhouse were the only ones on the board who didn't know the petition was circulating," he said. Still referring to Memler and Stackhouse, he added:

"And you fellows have been through this before. It's nothing new to you."

Henry referred to a similar request presented to the board before

Sterling Man Asks Lie Test in Fire 'Rumors'

STERLING—Frank Ewing, the Sterling car dealer whose wife and three children burned to death April 26, asked yesterday afternoon for a lie detector test to clear his name of "malicious rumors" in connection with the fire.

Ewing, speaking at a fire marshal's hearing here, said that the investigation now being conducted by Deputy Marshals Joseph Lohli, Springfield, and Walter Parlier, Peoria, is being carried on at his request.

The date for the lie detector test has been set for next Tuesday in Springfield.

Ewing's wife, Mrs. Garnett Ewing, 35, died in the flames after she apparently rushed back into their home to save the three Ewing children. Ewing, at that time, had to be handcuffed to a fire truck to keep him from dashing into the burning home after her.

The fire broke out, according to witnesses, about 1:30 a. m., after an explosion occurred. Moments

By ED CREAGH
CHICAGO — (AP) — The world must be turning upside down. Or so it seems to the Republicans.

Time was—and only four years ago when the Democrats were the only ones to take figurative brass knuckles to their conventions.

The Republicans? Oh, they got together on a candidate through a series of dignified understandings ("deals" is a horrid word) and they gave him the prescribed number of cheers and then they all went home without so much as a ruffled necktie.

WELL, IT'S different this year. The Democrats still have a chance to claw each other to pieces. Over civil rights, for example. But so far their presidential hopefuls anybody counted them lately are as polite to each other as high school boys to his girl friend's big brother.

AND THE Republicans? Well, you should have seen them last night. Maybe you did see some of it on television:

The jostling, shrieking masses in the aisles.

The cops called in to keep order. Speakers that couldn't be heard above the din.

Gov. Thomas E. Dewey boomed to the echo of the very people who twice ran him for President.

Pennsylvania's Gov. John S. Fine exploding onto the platform like a popped champagne cork, waving his arms in full view of the TV cameras, roaring that by God—as he put it—he was being given a raw deal and wasn't going to stand for it.

Well, there was a lot of it, including at least one fist fight.

IN VIEW OF all the feuding and fussing, this has been a pretty deadpan show. Hardly a joke cracked.

There's always the Puerto Rican delegation, though. It almost always insists on each of its members being called by name in a roll call. And then the members argue among themselves over who should vote.

The delegation has three members.

HERBERT B. Warburton of Delaware did his best to get a smile, too.

Said this convention reminded him of the one that drew up the United States Constitution in 1787 although:

"In that convention, things must have been much less hectic. There were only 55 delegates and you didn't have to spend half a day on the phone trying to locate any of them. As a matter of fact, the Russians hadn't even invented the phone yet."

THE DEMOCRATS may yet take over this convention.

A boy with a Kefauver-type coonskin cap wandered onto the convention floor last night.

And John Fell Stevenson, 16-year-old son of Democratic Gov. Adlai Stevenson, turned up wearing an "I Like Ike" paper cap.

"Only a joke," he explained. "I'm really looking to see whether any of Gov. Warren's beautiful California daughters are around."

Six Miners Die in Pit Explosion

GLACE BAY, N. S. (AP)—Rescue workers early today recovered the burned, broken bodies of six miners killed in a searing blast which rocked one of this Cape Breton town's largest coal mines 1,200 feet below the surface.

A seventh victim escaped immediate death in last night's explosion but was hospitalized in serious condition with third-degree burns. Eighteen other men working in the vicinity got out unhurt.

Rescuers dug with dynamite, picks, shovels and bare hands for nearly six hours through tons of fallen rock and coal to reach the trapped men.

There was no immediate indication of the cause of the explosion. The blast apparently centered under the Atlantic Ocean, about three miles from the main shaft of the mine.

Michael Chordas, a minor working on the level above the explosion scene, said he and his four companions felt a heaving bump—an upward movement of the mine floor caused by tremendous pressure.

"It got so hot we got out of there right away," he said.

The mine is owned by the Dominion Steel and Coal Corp.

Steel Strike Unemployed Nears Million

PITTSBURGH (AP)—Unemployment resulting from the great steel strike will be close to 1,100,000 next week unless there's an unexpected break in the shutdown throttling the industrial heart of America.

Chrysler Corp. expects to close virtually all of its extensive Michigan operations. The corporation says the shutdown will affect about 68,000 workers although 14,500 will be recalled to take inventory.

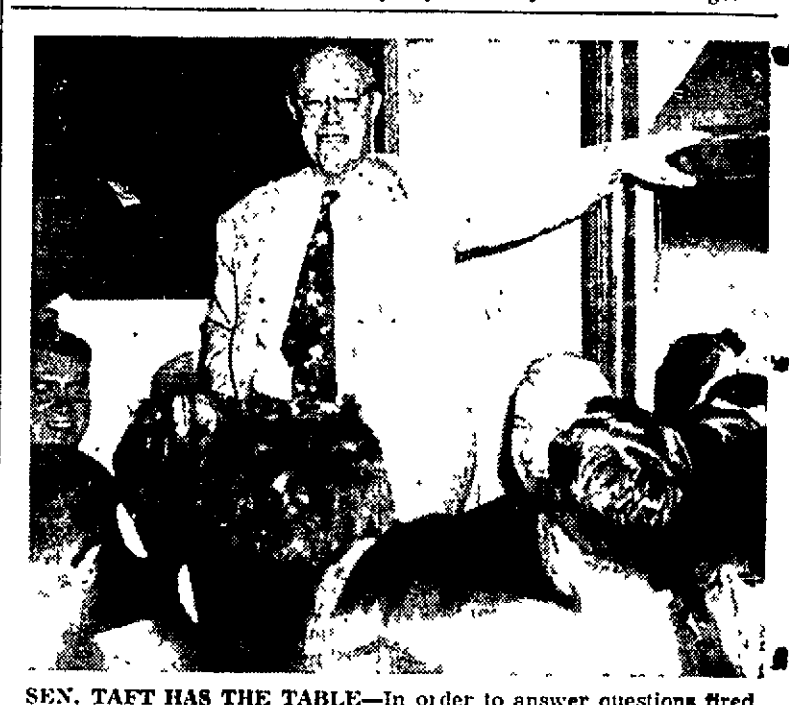

Auto production in Michigan has been cut 70 per cent and an estimated 100,000 workers in that state have been affected by the steel strike. Ford Motor Company already has shut down its assembly plants across the nation and General Motors has laid off thousands in its huge factory network.

In addition to the 600,000 steelworkers idle, another 422,000 in allied industries have been laid off.

While there's no sign of an end to the strike, called June 2, the CIO United Steelworkers awaited word from the industry on a proposal to agree to resumption of iron ore production.

Executives of 10 large steel producing companies, after meeting in New York Tuesday, said they would ask the steelworkers to end the companion strike of 23,000 ore miners in Minnesota, Michigan and Wisconsin.

Officials of the steel industry fear shutdowns next winter because of a shortage of iron ore. They're afraid they can't build up stockpiles because iron ore won't be shipped on the Great Lakes during the winter.

Truman Watches GOP Convention Via Television

BY JACK RUTLEDGE

WASHINGTON (AP)—President Truman is sitting in on the Republican National Convention—by television.

So far, he says he's happy over what he's witnessed of intra-party wrangling.

Regarding Senator Robert A. Taft, to whom he has referred repeatedly as his "favorite" GOP candidate because he believes he's easiest to beat, Truman said with a grin:

"I'm worried. It looks like my favorite candidate is going to get beat."

Truman's trip to the airport apparently caused him to miss the address yesterday by Sen. Joseph McCarthy of Wisconsin, a bitter critic of the administration.

Reporters asked the President whether he had anything to say about "the mistakes of the Ache-son-Truman-Lattimore party" described in Chicago by Sen. McCarthy.

Truman, his good humor vanishing, snapped that he didn't know anything about that. He added:

"But if McCarthy said it, it's a damned lie, you can be sure of that."

GOP Platform Slashes

(Continued From Page 1)

came in the section titled "corruption."

"The present administration's sordid record of corruption has shocked and sickened the American people," it began.

The platform said Republicans have exposed instances of "fraud, bribery, graft, favoritism and influence peddling" in the present administration.

"There have been disclosures of close alliances between the present government underworld characters," it said, and it protested a "double standard" in enforcing tax laws.

"Political favorites including even some gangsters and crooks" were treated leniently, the platform draft said, while honest taxpayers were harassed over minor discrepancies.

List Scandals

Then it listed many of the scandals that have been exposed by congressional investigations.

"The Republican party pledges to put an end to corruption," the document said, "to oust the crooks and grafters, to administer tax laws fairly and impartially and to restore honest government to the people."

Another special plank on communism said the Democrats had "permitted Communists and their fellow travelers to serve in many key agencies and to infiltrate our American life."

When Republicans protested and exposed these Communists, the platform said, the administration "raised the false cry of 'red herring' and took other measures to block and discredit investigations."

Needless Sacrifice

The GOP platform said the administration's softness on communism resulted in "the needless sacrifice of American lives, a crushing cost in dollars for defense, possession by Russia of the atomic bomb, the lowering of the Iron Curtain, and the present threats to world peace."

"There are no Communists in the Republican party," the platform stated. "We have always recognized communism to be a world conspiracy against freedom and religion."

If elected, Republicans said: "We will overhaul loyalty and security programs."

The platform hit hard at "federal compulsory health insurance," as often urged by President Truman, saying it involved "crushing

cost, wasteful inefficiency, bureaucratic deadweight and debased standards of medical care."

Hits Health Plans

"We recognize that the health of our people as well as their proper medical care cannot be maintained if subject to federal bureaucratic dictation," it said.

The platform put Republicans on record for support of scientific research and "encouragement of improved methods of assuring health protection."

On education, it said responsibility has and should rest "upon the local communities and the states."

It pledged "immediate statehood" for Hawaii and the same for Alaska. "Eventual statehood" was listed for Puerto Rico.

Taking note of many protests about curtailed mail deliveries, the Republicans promised "a more efficient and frequent mail delivery service."

One of the briefest planks dealt with "censorship" this way: "We pledge not to infringe by censorship or gag order the right of a free people to know what their government is doing."

U. S. Motorist Has Two Choices: To Sacrifice Speed or Himself

Looking for the cause of 326 traffic fatalities in the nation during the Fourth of July weekend, a new record for a three-day holiday on that date, speed must rank high.

Combined with overcrowded highways, a comparatively large number of inexperienced drivers out for a holiday, hot weather and short tempers, speed can and does rank high on the list of traffic killers.

This point is given weight by what happened the first day of the long weekend on two of the country's best-known roadways, the New Jersey Turnpike and the Pennsylvania Turnpike.

On the eight-month-old New Jersey super-highway, where the speed limit is 60 miles per hour, a heavy trailer-truck ramed into three automobiles parked at the side of the road. Five persons, including a three-year-old boy, were burned to death in the flaming wreckage.

Later in the day another crash on the turnpike cost two more lives. They raised to 25 the number of deaths on the 11.5-mile highway since it was opened last January.

But the speedways weren't yet through for the day. On the Pennsylvania Turnpike five persons were killed in a two-car crash.

The New Jersey Turnpike is a modern miracle of winding concrete—wide, sweeping curves, no cross traffic, no towns to go through, no nothing much except sit there and hold onto the wheel and zoom along at 60.

This sounds fine and it is, for a while. Then the whole thing gets to be a little monotonous. And that's where a lot of the turnpike trouble apparently comes from.

The senses lose some of their edge, lulled by the steady smooth pace and the motor's hum. The reactions seem to miss the frequent test of dealing with cross traffic, turns, and stops.

Also the driver is inclined to lose sight of the fact that he is traveling fast. So when an emergency does arise, when a car cuts sharply in front of him, or someone ahead brakes to a sudden stop, his senses often are not up to coping with the swiftness with which things happen, and accidents result.

At high speed such accidents can be bigger killers than ordinarily—five killed in the Pennsylvania crash, five dead in the New Jersey one.

By engineering standards, the turnpikes are marvels. But they don't, and they can't, take into full account human behavior. The relationship of man and his machine can be a satisfying and productive one up to a point, but the machine steadily becomes stronger and faster and there comes a point beyond which man cannot follow it and remain the master in control.

So some time along about now, man, the American automobile driver, is going to have to make up his mind whether he's going to sacrifice speed, or sacrifice himself.

Chromate coatings on zinc and cadmium are obtained by the simple process of immersing the article for less than one minute at room temperature in a solution of a special salt containing chromic acid. The salt comes as a powder, but is hygroscopic and must be kept in a tight container.

Most salt obtained from deep in the crust of the earth in America is captured and brought to the surface by high pressure water forced down one pipe which comes back through another laden with the mineral. In many parts of the world, salt is mined by pick-and-shovel workers who work deep under the surface of the earth.

RUTH MILLETT

Going to Church Is Vital Part of Child's Rearing

A friend says she was shocked the other day by a question put to her by her eight-year-old son. "Why," he wanted to know, "do we go to church every Sunday? Most of the kids in the neighborhood don't ever go."

It wasn't the question itself that shocked her. The shock didn't come until she started to answer it by proving to her small son that his sweeping statement wasn't based on fact.

But as she mentally ran through a list of all his neighborhood playmates she discovered the boy was right. Most of the children in the neighborhood didn't go to church. Searching for a reason she decided that in most of the cases it was just a matter of the parents not being willing to make the effort to get the family off to church on Sunday morning.

REASONS, BUT NOT EXCUSES. Some of the parents belonged to social groups that always come Saturday night as party night.

That made sleeping late Sunday almost a must for them.

Others devoted their Sundays to their children, but didn't include church in the Sunday plans. They regarded Sunday as a kind of holiday from all obligations.

That, it seems to me, is the mistake too many modern parents make—the mistake of thinking that they can give their children everything they need, without calling on their church to help them.

Probably most children would rather spend all day Sunday playing than go to church with their parents. They aren't going to protest if church attendance is left out of the family's plan of living.

So the decision to make a place for worship in the family's routine is the responsibility of the parents. They're falling down on the job if they don't take their children to church—whatever excuses they think up to justify themselves.

In Hollywood

HOLLYWOOD—(NEA)—Exclusively Yours: His agents are wringing their hands, but Richard Widmark's definitely bowing out of his Fox contract and leaving Hollywood two years from now.

"It's not money. These days an actor can't make a fortune so I may as well do what I want to do on the stage. Age has something to do with it, too. You think to yourself that the end of the road isn't too far off, so you want to enjoy life while you can. Time is breathing down my neck. There are things that I have to do and they aren't in Hollywood, I want new challenges."

Alan Campbell is again saying that there will be no divorce filed by Dorothy Parker. It will be a permanent separation "because we are happier when we are apart." . . . French actress Suzanne Flont will share the feminine honors opposite Jose Ferrer in John Huston's "Moulin Rouge." It may not be admitted, but before becoming an actress Suzanne was Edith Piaf's secretary.

Television, the steam-roller, is responsible for the raising of the historic outdoor cathedral set built for Lon Chaney in "The Hunchback of Notre Dame" in 1923 at U.I. Permanent outdoor sets for telefilms are replacing the famous structure.

LIVING LINCOLN DOWN

Raymond Massey's contract with Producer Paul Gregory stipulates that his role of Abraham Lincoln be played down in the publicity for his forthcoming road tour as Ty Power's co-star in "John Brown's Body." Massey, who will double in five other parts, is trying to live down his identification as the perfect Lincoln type. It's hurt his career.

Mario Lanza, of all people, wants to co-star with John Carroll in a blended-voices musical, and that's one reason why MGM just gave John an audio test.

It's in Charles O'Curran's contract with Paramount that he be given his chance to direct within the next year. And if he doesn't get the chance, Betty Hutton will have plenty to say about it.

Katrina Paxinou, the famous Greek actress who won an Oscar and then got the kiss of death from Hollywood, has another movie comeback chance. She stars in one of the three episodes in "Tales of Cairo," now being filmed in Egypt by Victor Stollot. The picture will be released as a movie-house feature or chopped up for TV.

Maureen O'Hara's decided to divorce Will Price after all. How many times can a movie queen change her mind? Two weeks ago she swore there would be no breaking of legal ties.

Barbara Lawrence has been given the green light to resume her film career following the birth of her child. . . . Film newcomer Wy Melano, who's been kept under wraps by Warners as a threat to Mario Lanza, made his Hollywood bow at Ciro's on July 4. The studio has big plans for the handsome singer. What happens to Gordon MacRae. . . ?

JACOBY ON BRIDGE

Be on Lookout for a Triplecross

By OSWALD JACOBY

Every good player expects a smart opponent to try a doublecross now and then, but hardly anybody is ready for a triplecross. The difference is illustrated in today's hand.

West opened the five of spades against South's modest contract. Declarer unhesitatingly played the ace from dummy, and East just as unhesitatingly dropped the singleton king. South pursed his lips and nodded, as he worked out the fact that West had led from a five-card spade holding.

After some thought, declarer ran his four clubs at once. West discarded a spade on the fourth club, and South pursed his lips again. He now knew that West had begun with eight black cards, and only five red cards.

South continued by laying down the ace of hearts and leading a low heart to dummy. On the second round of hearts West produced the queen.

South's first impression was that West had started with only two hearts, and that he therefore had

but West knew exactly how South's mind would work.

Questions and Answers

Q—When was the United States Army first used to break a strike?

A—In 1877, when President Hayes, at the request of the governors of the states, sent Federal troops to break a railroad strike that threatened to spread throughout the middle west.

Q—Who wrote the Epistle to the Hebrews?

A—No one knows who wrote the book. It has been credited to Barnabas, Apollos, and others. Some scholars believe that it was written by the Apostle Paul.

Q—Should Saint Peter's Church in Rome be designated as a cathedral?

A—It is not a cathedral, for the true cathedral chair of the Pope is in another church.

Q—What is the law in Australia in reference to voting?

A—Any man or woman in Australia who has a right to vote is required by law to do so.

Q—What is the highest mountain in Japan?

A—Fujiyama, which rises to a height of 12,395 feet. It is a volcano known throughout the world for its great beauty with a nearly perfect cone.

Prayer for TODAY

Eternal God, we turn to thee with penitent hearts. Facing the confusion of our times, we know that our sins have brought this disaster upon us. Forgive us and set our feet on the path of righteousness once more. We come to thee because thou hast heard and answered our prayers, not according to our power to ask, but according to the depth of our great need.

WESTBROOK PEGLER

Pegler Thinks Eisenhower Is a Stupid Man and He Will Do All in His Power to Prevent His Election

(Copyright, 1949, King Features Syndicate, Inc.)

CHICAGO—I think General Dwight D. Eisenhower is a stupid man who bears a terrible stain of guilt in the creation of the situation vis-a-vis Soviet Russia which now calls our young men to arms for a war to preserve western civilization. If he is nominated I will do all I can to prevent his election not only because I think he has demonstrated a dangerous stupidity, but because he will be surrounded by a circle of men and women who were prominent agents of the disastrous Roosevelt and Truman administrations.

I will be 58 years old my next birthday, and, as Ike said of himself in his recent Denver speech, I am not thinking of my own future because, obviously, it will not be a long one. In his headquarters outside Paris last winter, General Eisenhower told me he wanted to preserve our civilization for his grandchildren. He said he had them in mind in all his hopes and plans. I think there are millions of Americans of rising fifty years who feel about the same.

What is America to me? I ask myself that occasionally.

What am I loyal to? Certainly I am not loyal to the president. I despise Truman. The reasons why I despise him have been canvassed here in detail and are too well known to need repetition now. I regard him as a bad man, a man who has intentionally done my country terrible harm; has lied so glibly that the people have lost the flavor of truth and relish lies, and squandered us close to bankruptcy trying to redeem his own follies and Eisenhower's stupidity.

Am I loyal to the Mississippi, the Hudson, the beautiful deadly western mountains, to the people of the United States, to congress, the constitution or the Stars and Stripes? The big rivers are no prettier, no more spiritual than the Rhine or the Orinoco. I can take mountains or leave them. Many of the American people are offensive, not only to me but to most of the other American people. We don't all love one another just because we are Americans. Congress has been degrading ever since Roosevelt's first election and deserves neither admiration nor loyalty. But the Constitution is a great institution, with the exception of the income tax amendment, which is a slavery clause that can be repealed and the flag is to me a beautiful symbol of the Constitution. So I find that I am loyal to the Constitution and the Flag.

I think Senator Taft is loyal to both. I am sure General Eisenhower thinks he is loyal to the Constitution and the flag. But the most influential people in his New Deal circle are determined to warp and chop away portions of the Constitution and I am not confident that he has the moral resistance and the intelligence to fight them down. They will want to slip over the Truman bill to permit the federal government to invade the states to punish communities where crowds beat up accused persons (usually guilty persons). They want to give the United Nations power to veto some of our laws and enact other laws to be imposed on us by foreign nations. There are many in this Eisenhower New Deal crowd who have demonstrated hatred for the restrictions imposed on the president, congress and the Washington bureaucrats by the Constitution. I am not confident that he would detect their attacks on the Constitution, but I am absolutely confident that Taft would. He has already.

As to whether the Democrats would give me a man to vote for if Ike were nominated I could vote for Stevenson, if the Democrats named him.

I don't want to hate Ike. He is an ingratiating man and I found myself wondering what was wrong with me when I left his presence in Paris feeling warmth for him. I knew in my soul that this man had failed in the most critical test of his life. I went over to Germany a few days later and then into Berlin and on every hand, there were terrible reminders of the failure which took the great victory away from Western Christendom and handed it absolutely free to Stalin. Eisenhower bowed meekly to the decision of a wicked fool, Franklin D. Roosevelt, to give Russia all Eastern Germany containing the breadbasket of the nation which we now would have to feed, and containing millions of Christians who now were doomed to atheism under Communism. He had accepted the division of Berlin without the slightest protest over the lack of a corridor. Later, by fine-haired, legalistic implication, this was "adjusted," but we soon saw what value this had with Stalin when he closed the road and the railroad.

Why didn't Ike raise a howl, against these awful deals that were slipped over on our unsuspecting people? Was he afraid of being fired? Was it that he was too dumb? Was he too servile to the "commander in chief"? By this time, the C-IN-C was an ignorant gang politician from Kansas City, who has since admitted that he didn't know what Roosevelt had promised away because he had never asked any questions to prepare himself for his responsibilities, even though it was plain that Roosevelt was a dying man and almost imbecile in his decline.

How can I vote for a man who lacked the something—patriotism, gumption, intelligence or whatever it was that he lacked—to smash ahead and defend the victory and spare my country the agonies of the present and the doom of the future?

THE DOCTOR SAYS:

Researchers Open New Doors to Polio Prevention

It may seem to many people that little progress has been made by research workers in their attempts to conquer the dread disease, polio.

This, however, is not the case, and much information is becoming available which is opening new doors and which may eventually lead to more satisfactory methods of preventing this disease, and of treating it.

A summary of a few of the developments of recent years gives great hope for this brighter future, even though just how some of these facts can be used in a practical way is not yet entirely clear.

For example, it is now realized that when a severe case of polio has been correctly diagnosed, it is already late in the course of the disease.

It is also realized that the virus which causes polio does not necessarily attack the nervous system and cause paralysis and that in fact, many have the disease without ever having any nervous or muscular symptoms. Obviously, this may eventually lead to some important changes in treatment, or prevention.

Another important research development lies in the recent discovery that the virus can be grown in a tissue-culture test tube, and that much work can be done with the virus in this manner which formerly could be performed only by using monkeys as experimental animals.

This will make easier and less expensive many studies which may have an important bearing on the disease.

One thing which is badly needed is a test which will make it possible to diagnose polio early and in those patients who do not have any nervous symptoms as well as

in those who do.

For at least 35 years research workers have been trying to develop such a test, and even though this has not yet come, their efforts will surely be crowned with success sometime. When a test is perfected, it will permit many other forward steps to be taken.

For many years it has been thought by close observers of polio that excessive physical exertion, fatigue, or some other form of stress might exert an unfavorable action on the disease.

BED REST ADVISABLE
In one report, 411 patients with polio from three epidemics were studied with regard to the amount of physical activity which they performed around the time when their illness began.

Study of the results suggested that physical activity done before the disease had actually begun did not seem to have much effect on the severity of the paralysis.

However, when physical activity was carried out after the signs of illness had appeared, even before they had become serious, there did seem to be a definite increase in the numbers of those who developed paralysis, and in the severity of such paralysis.

Consequently, it would seem wise in the presence of polio in the community to put every youngster with minor symptoms to bed for a short time until it is sure that the disease is not polio.

Do You Want to Be President? Miss Sioussat Knows Secret

BY DOROTHY ROE
AP Women's Editor

Dear candidate: So you want to be President.

If you are serious in this intent, I'd like to suggest that you look up a certain good-looking gal who stays mostly behind the scenes at the conventions, but knows more about how Presidents get elected than most campaign managers.

When you meet Helen Sioussat, don't be misled by her apparently frivolous manner, her gay chatter and her jangling charm bracelet. Herbert Hoover gave her most of the charms, she recounts, in appreciation for what she taught him about politics as it is practiced today.

She Grooms Candidates

This is the young lady who is in charge of radio talks for CBS. She probably has groomed more candidates for the air waves and the TV screens than anyone in the business.

She's been pulling strings behind the scenes at all presidential conventions since 1936, being careful, of course, to be strictly impartial, and assisting all comers in such matters as voice timber, enunciation and more recently how to look good on TV.

She was right in there pitching when FDR showed the world the effectiveness of radio as a political tool. She scheduled the talks of Willkie and Dewey and Gen. MacArthur, making fast friends of them all. She is as familiar with big names as any world celebrity and on many occasions she has had to hold the hand and pat the clammy brow of a renowned statesman suddenly seized with mike fright.

She feels that the candidate who will occupy the White House next year is going to be the one who most effectively puts across his story to the nation's voters via the nation's radios and TV screens. She says:

Needn't Be Orator

"It isn't necessary for a candidate to be a great orator to get his story across to the people—though of course it helps. But he has to talk straight and put some conviction in his voice, because both radio and TV can show up a phony at 40 paces.

"A successful candidate must make an impact on the millions of listeners and viewers who decide the elections in their own living rooms. And to do this a man must be able to project his own personality across the air waves. Some men can and some can't. But even the greatest natural orators do better after they get a little coaching on the new techniques."

Her unvarying advice to candidates is the title of a book she wrote a few years back: "Mikes don't bite."

Hatches Goslings

CENTRALIA, Ill. (AP) — A Southern Illinois heat wave was not enough to hatch an egg — in fact six, claims a Keyesport farm wife.

Mrs. Henry Schmitt said goose eggs failed to hatch under a hen in normal time and were discarded. She delayed burying them. After a week of temperatures near 100 degrees, she happened to note one egg cracking. She said natural heat hatched six goslings.

Popular Course

SINGAPORE, (AP) — Seventy-five per cent of new students at the University of Malaya want to study medicine because of the professional standing of doctors in the community and their higher income, a university spokesman said.

Of 128 students, 85, including 15 girls, are entering the Faculty of Medicine, 26 the Faculty of Arts and 17 the Faculty of Science.

NEW YORK, (AP)—People who eat on the run soon may be able to get a complete lunch—including hot sandwiches—from one vending machine.

A device is being manufactured with seven compartments which dispenses, when the proper coins are inserted, juices, hot or cold sandwiches, pies, pastries, coffee and chocolate milk.

TV Bail

SOMERVILLE, Mass., (AP)—A new use for TV sets was suggested here recently. An Army private was arrested on a warrant charging assault sworn out by his wife. No sooner had he arrived at the police station than his sister-in-law called and offered to put up a television set in lieu of bail.

The police lieutenant didn't think it would be accepted by the bail commissioner.

PRESIDENT ELECT—Adolfo Ruiz Cordines, backed by President Aleman and the political group that ruled Mexico for 26 years won the presidency of Mexico in the first bloodless balloting in the nation's stormy political history. Although official returns will not be announced until July 20, Cordines' three opponents bitterly admitted defeat.

Aids Indo-Chinese

SAIGON, Indo-China, (AP) — Nearly 160 ships now have unloaded American war equipment and supplies in Indo-Chinese ports for the French Union forces battling the Communist-led Vietminh armies.

The value of aid supplied by the U. S. to the French since the Military assistance program started in July, 1950, now is believed to be close to one billion dollars although no official estimates have been released here.

Verna Mae Morning, Robert Sondgeroth Wed in Amboy

NEWLYWEDS MR. AND MRS. ROBERT L. SONDGEROTH are shown above with members of their wedding party. The former Verna Mae Morning whose grandparents, Mr. and Mrs. Harry D. Riley, reside in Lee Center, and the son of the Richard Sondgeroths, Amboy, were wed in Amboy.

Lee Center Bride Dons Satin Gown

LEE CENTER—For her wedding to Robert L. Sondgeroth, son of Mr. and Mrs. Richard Sondgeroth, Amboy, Verna Mae Morning selected a gown of white satin. Verna is the granddaughter of Mr. and Mrs. Harry D. Riley, Lee Center, St. Patrick church, Amboy, was the scene of their June double ring ceremony. Rev. Robert C. Troy officiated. Sister Hyacinth was organist and Richard Montavon, Amboy, soloist.

Given in marriage by her grandfather, the charming bride wore a gown fashioned with a full skirt and long train. Her white veil was elbow length and she carried a white orchid on a white Bible, a gift of the bridegroom.

Mrs. Ethel Rees, Scarborough, aunt of the bride, was matron of honor. She wore a lilac net over satin ballerina length gown and carried orchid and yellow pompons.

Thomas Blackburn, Franklin Grove, was best man and Bruce Conibear and Lester Delhotal, both of Lee Center, ushered.

Ringbearer, Flower Girl

Douglas Riley Jr., Princeton, was ringbearer for his cousin. Flower girl was another cousin of the bride, Mary Ann Riley, Princeton. Mary Ann wore yellow organza and Douglas Jr., a white, linen suit.

The bride's grandmother wore brown and beige accessories and a yellow rose corsage with her rose colored dress. The bridegroom's mother wore a two piece beige and brown dress with white accessories. Her flowers were red roses.

An afternoon reception was held at the bride's home, Lee Center. Mrs. Douglas Riley, aunt of the bride, served the four-tiered cake; Jeanne Miles and Mrs. Richard Archer poured and Judy Sondgeroth, sister of the bridegroom, had charge of the bride's book.

Live in Rhode Island
When the newlyweds left on a short wedding trip to Chicago the bride wore a gold colored dress with brown accessories. They will reside in Warwick, Rhode Island. A graduate of Lee Center high school in 1948, the bride has been employed at the Central Electric

Mrs. Lester Ommen to Preside at Auxiliary Convention in Joliet

End Unsightly Facial Hairs

Superfluous facial hair is often a beauty problem for the middle-aged woman. Its appearance is usually sudden and for no apparent reason.

If you are in a state of confusion as to what to do about embarrassing fuzz, here is news of utmost importance. There is a pink, powdery disc on the market that promises to whisk away unsightly hairs safely and easily.

The special formula disc is an abrasive—but such a gentle one that there is no danger of irritation from it. Use a feather-like touch and a circular motion.

Rough up the disc before using it with the emery board which do the job with such gentle ease.

When you have erased the hairs this dry-method way from one spot on your face, clean off the disc with your emery board and loosen more powder particles. Then go after the remaining superfluous hair.

This particular disc, claim the manufacturers, does not encourage a heavier regrowth. Furthermore, the hairs do not grow back in again bristly. There is also a special disc for your arms and legs. Both have been designed to keep your skin femininely smooth and beautifully hair-free.

More Eloquent Than Words!

It is true, of course, that a Cadillac owner is proud of everything about his motor car.

But it is also true that he reserves a special place in his heart for the beautiful crest that rides high on the hood.

For here, as only he can fully appreciate, is one of the most wonderful and unique symbols in all the world of manufactured products.

In fact, it seems safe to say that no other mark of identification speaks so clearly or so eloquently of the product that bears it . . . and of the man who owns it.

It tells, for instance, of magnificent engineering and inspired design—and of experienced craftsmanship and painstaking construction.

It promises mile after mile of superlative motoring enjoyment—and it foretells year after year of dependable and enduring performance.

It proclaims, in short, the Cadillac pledge of quality—that here is an automobile built to the highest

standards it is practical to enforce in the production of a motor car.

And, oh, the wonderful things it says about the man behind the wheel!

It reveals, more surely than if the words were spoken, that he is a man of position and achievement in his own private world of affairs.

It attests to the high regard he places on the safety and the comfort of his fellow passengers.

And it says, with unmistakable clarity, that he is a person of discernment and good taste.

Little wonder that the man who owns a Cadillac takes special pride in the beautiful crest that identifies it and adorns it.

The Cadillac crest tells its most eloquent story when it adorns the magnificent car illustrated above. For here is the illustrious eight-passenger Cadillac "75"—so luxurious, spacious and distinguished that it stands alone among the world's motor cars.

CBS Personality Gives Candidates Radio Tips

By DOROTHY ROE

Associated Press Women's Editor
Dear Candidate: So you want to be president.

If you are serious in this intent, I'd like to suggest that you look up a certain good-looking gal who stays mostly behind the scenes at the conventions, but knows more about how presidents get elected than most campaign managers.

When you meet Helen Sioussat, don't be misled by her apparently frivolous manner, her gay chatter and her jangling charm bracelet. Herbert Hoover gave her most of the charms, she recounts, in appreciation for what she taught him about politics as it is practiced today.

This is the young lady who is in charge of radio talks for CBS. She probably has groomed more candidates for the air waves and the TV screens than anyone in the business.

Since 1936 she's been pulling strings behind the scenes at all presidential conventions since 1936, being careful, of course, to be strictly impartial, and assisting all comers in such matters as voice timber, enunciation and more recently how to look good on TV.

She was right in there pitching when FDR showed the world the effectiveness of radio as a political tool. She scheduled the talks of Wilkie and Dewey and General MacArthur, making fast friends of them all. She is as familiar with big names as any world celebrity and on many occasions she has had to hold the hand and pat the clammy brow of a renowned statesman suddenly seized with mite fright.

She feels that the candidate who will occupy the White House next year is going to be the one who most effectively puts across his story to the nation's voters via the nation's radios and TV screens. She said:

Radio and TV
It isn't necessary for a candidate to be a great orator to get his story across to the people—though of course it helps. But he has to talk straight and put some conviction in his voice, because both radio and TV can show up a phony at 40 paces.

The walls of her New York office are plastered with autographed photographs of great men whose destiny she has helped guide.

Busy Bees Meet

The recent meeting of the Marion Busy Bees 4-H club was held at the home of Doris and Carol Boehle. Demonstrations were given by Judy Willstead, "Keeping Clean," and Patsy Troxell on hair. Two visitors were welcomed. The girls told of day camp which they attended.

The club will meet next on July 17.

Housework Easy Without Nagging Backache

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 66 years, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 million kidney tubes and filters flush out waste. Church Society Hears Rev. Olden Mitchell, Tuesday

The July meeting of the Missionary Society of the Church of the Brethren was held Tuesday evening in the church parlors, with Mrs. L. E. Sheller presiding in the absence of the president.

Mrs. Ira Utz led the group in singing a hymn and Mrs. Olden Mitchell conducted the devotional period.

Various reports were heard and approved. Mission-grams were read and Miss Marian Butterbaugh

read a letter from the George Mason family of India.

Reverend Olden Mitchell, executive secretary of this district, was the evening's guest speaker and talked on the women's work of the church.

Refreshments were served at the close of the evening by the hostess committee.

Women of Country Club Host Guest Players July 9

Women from Freeport and Plum Hollow joined the Dixon Country club women for golf Wednesday, attending annual Guest Day at the club. Some arrived early for the 1 o'clock tee off, playing 18 holes, while others came out later to just travel nine holes. For those who wished there was bridge and by the time the fried chicken dinner was served nearly 80 golfers and bridge players, were at the club.

Mrs. Lucille Poole, co-chairman of the event with Mrs. Emma Jane Noble, awarded the prizes of the day following dinner.

Chic Nilsson had low gross for 18 holes and Virginia Flower, low gross for nine holes. Both are of the host club.

From Plum Hollow
Winning honors for Plum Hollow were: Helen James, low net, 18 holes; Elsie Shaulis, low putts for 18; Dorothy Rhodes, low net for 9 and Myrtle Swan, low putts for 9.

From Freeport, Ina Stukenberg had low net for 18 and Winnie Ed-

wards, low putts for 18.

Playing at their home club, Lu Miller had low net for 18; Alice Peterson, low putts, 18; Alice Brant, low net, 9, and Janice Miller, low putts for nine.

In evidence at yesterday's big day at the club was the fast growing junior membership. Terry Utley was a winner from the younger set.

A festive note was added at the dinner hour when the birthday of Mary Lu Symons was celebrated with a large decorated cake.

17,000 U. S. Payrollers Getting Ax

WASHINGTON —(AP)—“You’re fired” notices began going out to about half the 17,000 employees of the government’s anti-inflation agencies today as result of the heavy ax congress applied to appropriation requests.

Economic Stabilizer Roger L. Putnam said his program will be hurt but he would “do the best he can with what we’ve got.”

He said congress “gave us—and the consumer—an awful kick in the teeth” in providing the agencies with only 60 million dollars compared with the 103 million requested.

A spokesman said 30-day dismissal notices would start going out today.

Republican Farm Plank Says Truman Administration Destroyed U. S. Freedom

CHICAGO —(AP)— The resolutions committee of the Republican national convention today accused the Truman administration of trying to destroy the farmers’ freedom by making them dependent on government subsidies.

A GOP platform submitted to the convention promised to free the farmer from this “threat” and to set up instead a federal farm program designed to give producers parity prices.

Parity is a standard for measuring agricultural prices, declared by law to be equally fair to farmers and to those who buy their products.

GOP PROMISES

The GOP farm plank promised to use commodity loans, farm storage, farm credit, voluntary self-supporting crop insurance, and federal price supports to seek full parity prices.

Price supports, it said, would be set at whatever levels were found necessary to maintain a balanced production and to stabilize farm income.

It did not commit the party to a 90 per cent parity support level promised by the Truman administration and recently set up for major crops through 1954 by action of congress.

Denounce Brannan
The platform denounced a controversial farm plan advanced three years ago by Secretary of

Agriculture Brannan as a “fraud” on both the farmer and the consumer. This plan proposed the use of subsidies to supplement farm income when prices drop. It would allow food prices to go lower, its sponsor said, than is possible under the present program.

The GOP document said the Brannan plan subsidies would have to be paid through heavy taxes. Coupled with such subsidies, it said, would be controls that would “socialize agriculture.”

Hit at Dictation

“We denounce the administration’s use of tax money and a multitude of federal agencies to put agriculture under partisan political dictation and to make the farmer dependent upon government,” the plank said.

The plank draft favored a bipartisan federal farm commission to review farm policies and to make recommendations.

It also gave support to a “constructive” soil conservation program under which payments would be made to farmers for making permanent improvements.

HE SAID IT

The saying “A guard dies but never surrenders” is attributed to General Cambronne, at the end of the battle of Waterloo, when summoned to surrender the remnant of the Imperial Guard.

24 Red POW’s Injured in Prison Row

PUSAN, Korea. (AP)—Twenty-four prisoners were injured Wednesday when club-wielding Reds fought each other in a stockade at Nonsan, the Army said today.

A platoon of American guards restored order without firing a shot or using tear gas, the Army said.

About 130 prisoners were involved in the demonstration. Nonsan is about 22 miles southwest of Taejon in Southwestern Korea.

Guards Move In

Guards moved into the compound after two groups of war prisoners armed with clubs and other homemade weapons began rioting inside the barbed wire enclosure, the Army said. No reason for the fight was announced.

Fourteen of the injured prisoners were hurt seriously enough to require evacuation to Taejon for hospitalization. One was reported in serious condition.

Tax Men Seize 804 Moonshine Stills in June

WASHINGTON —(AP)— Federal revenue agents bore down hard on moonshiners during May, seizing 804 stills valued at \$325,597.

The Bureau of Internal Revenue announced today that about 780 of the stills were seized in the South, only one in Western states, and just a handful in Midwest and Northern districts.

The Alabama, Florida, Georgia and South Carolina district produced the largest number of seizures—368. Seized property was valued at \$96,090.

Financially, the best haul was in the New Jersey-Delaware district—only six seizures, but the property was valued at \$104,035.

said the fighting started at Compound 16 shortly after midnight when about 40 prisoners, armed with clubs made from tentpoles, began attacking other prisoners and ripping tents.

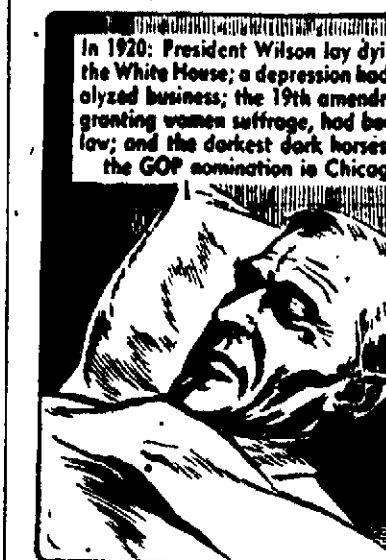

Crawl Through Fence

Some 16 prisoners crawled through the compound fence to escape the violence. They immediately surrendered to guards outside the compound.

The prisoners were presumed to be North Koreans because the U. N. Command has announced all Chinese POWs now are held on Cheju Island off South Korea.

WANTED:

15 Journeymen Machinists

Somewhere in this vicinity there are machinists who are so good at their craft that they have outgrown their present jobs.

These men are proud of their skill, and they have a right to be. The understand and can work with fine tools as few men can.

As machinists, these men have probably had longer and broader experience than the average.

But aside from their experience, and skill, there is another thing that marks these men as “born machinists.” And that is the joy, and the satisfaction, and the pride of craftsmanship they find in their work. They don’t talk about it, but it’s there. And it’s so much a part of them you couldn’t cut it out with a knife.

Maybe you are one of these machinists. If you are, here’s what we have to offer you:

The job of building the precision packaging and mill machinery used to produce Quaker and Aunt Jemima Brand foods. You will build new machinery... starting at the blueprint stage. You will repair and remodel existing machinery. You will construct experimental machinery for research use.

The variety of the machinery you will work on will offer continual new challenges to your skill. Your job will never bog down into the monotony of day-in-and-day-out tool tending.

The place—the Central Shop of The Quaker Oats Company in Oregon, Illinois. If you have ever visited or driven

through this town, you have probably noted that despite its steady growth it has kept a comfortable, relaxed atmosphere that makes for good living. Good roads into Oregon provide fast, traffic-free commuting for those of our employees who live in surrounding areas.

The equipment you will work with is the finest.

The wages you will earn are substantial.

The security you will have would be hard to match anywhere with full time and continuing employment. The Quaker Oats Company is one of the largest and most solidly established food concerns in the country... and will remain so as long as people eat.

The extra benefits include a generous pension plan, profit sharing, life insurance, illness and sickness benefits.

The vacation plan provides one week fully paid vacation for your first year of employment, 2 weeks after your third year, and 3 weeks after your fifteenth year. Plus 6 paid holidays during each calendar year.

Your fellow workers will be highly skilled machinists like yourself. And while the size and permanency of The Quaker Oats Company assures you “big company” security, you’ll enjoy the congenial working conditions of a relatively “small” shop... employing a total of less than 60 people.

Like to hear more?

Phone or visit Mr. Simmons or Mr. Hoover between the hours of 9:00 AM and 9:00 PM on any weekday, Oregon—385.

Amboy Legion Team Disqualified

It's tough to take, but apparently Amboy will have to accept the division office edict that disqualifies its baseball team from the championship game here Sunday.

MATT DEITELHOFF, who has been close to Legion baseball activities in Amboy for years, admitted this morning that Louis Bonzi, division chief, has been lenient in extending the deadline for the eligibility material each team must send.

"We held up the papers until we got all the pictures rounded up," Deitelhoff said this morning. "It was all in the mail before the deadline, but I got a telegram from Bonzi this morning saying we couldn't play."

HARDEST HIT by this penalty on a technicality and members of the Amboy Legion team, the boys who had their sights and hearts set on winning the district championship.

HERE IN DIXON, plans are being made to have a festive air at Reynolds field Sunday afternoon no matter which teams play in the title game.

Tom Jordan announced this morning that an effort is being made to obtain the Dixon State hospital band for the occasion.

NAMES AND THINGS:

MR. JOHN (FRIDAY) SHULTZ, the Telegraph's bowling expert is on a vacation from his lineotype machine this week. Among other things, "FRIDAY" expects to watch the Cubs and Brooklyn play baseball and to have a few words with his old friend, CHARLES (CHUCK) DRESSEN, manager of the Bums. Maybe he'll have the inside word on Brooklyn's chances when he returns. . . . GENE BARROWMAN, now of Joliet, has been a golfing visitor to Dixon the past two days. GENE's old golfing friend, RALPH SCHROEDER, showed him how the pros do it when he holed out a 70-foot pitch shot to the ninth green at Dixon Country club Tuesday evening. . . . Oregon golfers are in the midst of their 36-hole Lincoln Highway qualifying battle against bogey. . . . And several Highway qualifiers from Dixon have decided that next week will be a good vacation week, the better to learn the pitfalls of the Morrison Country club course. Wonder what their wives think of this maneuver. TOM CORKEN and HENRY UTLEY will play in the boys' division of the Western tennis championships on the University of Illinois courts starting July 21. The Dixon Rotary club will sponsor their appearance. JAMES CORKEN, Tom's father, will drive the boys to Champaign. . . . Other tennis news is that both the North and South side tennis courts may be resurfaced this summer. Word is that the park board would like some aid from the school board on the cost of resurfacing the North side courts—where the high school players use in the spring time.

division office in Rockford resulted in the disqualification.

Louis Bonzi, of Rockford, head of second division baseball affairs, informed Matt Deitelhoff, of Amboy, this morning that the Amboy team will not be allowed to play in the championship game Sunday.

According to Deitelhoff, the material was not sent to the Rockford office before the deadline because of a delay in obtaining photographs of all Amboy players.

Locals Lose On Road by 13-5 Score

CLINTON — (Special) — Dixon's Elks club tennis team ran into a tough Clinton club here Wednesday and returned to Dixon on the short end of a 13-5 score.

Henry Utley, winner of the Mississippi Valley boys singles championship here Sunday, lost his match to Jim Murphy, an over-age player who competes with the Clinton men's team. Murphy defeated Utley, 6-0, 6-3.

In most cases, the underdog Dixon players were the ones who copied their matches, while the top-seeded Dixon players failed.

John Vaile, Rudy Marloth, David Tagge and Bob Ray were singles winners for Dixon, and Bay and Otto Nelson teamed to win Dixon's only doubles victory of the day.

The results:

SINGLES
Jim Murphy (C) defeated Henry Utley (D), 6-0, 6-3.
Gerald Schuchman (C) defeated Joe Coughlin (D), 6-0, 6-3.

Savitt, Larsen Lead Clay Court Tennis Field

CHICAGO —(AP)—Top-seeded Dick Savitt of Orange, N. J., and second-seeded Art Larsen of San Leandro, Calif., today appeared headed towards a showdown for the National Clay Court singles title.

In opposing brackets, Savitt and the temperamental Larsen moved into the third round at the River Forest Tennis Club against foes they were expected to mow down with ease.

Savitt, easy winner of his first two matches Wednesday, squared off against Harrison Bowes of Highland Park, Ill.

Larsen takes on youthful Bill Davis of Knoxville, Tenn., another undefeated entry.

Although top-seeded Anita Kanter of Modesto, Calif., appeared tough to whip in the lack-luster women's field, a big surprise Wednesday was Lorraine Williams, 13-year-old Chicago Negro-white, Lorraine pranced to a 6-3, 6-3 second round upset of third-headed Patsy Heard of Portland, Ore.

Freeport's Roger Rubendall Again Cops Jaycee Meet

ELGIN, Ill. —(AP)—For the second straight year, 17-year-old Roger Rubendall of Freeport, resigns as Illinois state champion of the Junior Golf Tourney.

Rubendall covered the 36-hole route Wednesday at Bonnie-Dun-dee course in par-matching 71-71-142 to finish two strikes ahead of Chicago's Jim King, who had 70-74-144. King's 70, one under par, was the day's best round.

The top four finishers, also including Don Kublak of Chicago with 76-71-147 and Ken Scott of Rockford with 73-75-148, qualified for the National Jaycee tourney at Eugene, Ore., Aug. 9-16.

An alternate spot was won by Rockford's Denny Currier with 76-75-151.

A field of 70 started and finished the test for the youngsters under 18.

Red-Hot Redbirds Nearing Crucial Stage in NL Race

By JOE REICHLER
AP Sports Writer

The next two weeks should decide the fate of Eddy Stanky's St. Louis Cardinals.

Beginning tonight, the red-hot Redbirds take on Philadelphia, Brooklyn and New York in succession before closing out their home stay with Boston in an 11-game stand against the Eastern cities.

By then, the sizzling Cards may either have blown a fuse or have established themselves as a solid pennant threat on an even footing with the Dodgers and Giants.

Hottest Team
Currently the hottest club in the National League, the Cards are riding high on a nine-game winning streak with 18 triumphs in their last 22 games. Following in the second division a month ago, the Redbirds have pushed into third place, 9½ games behind Brooklyn.

Stanky, though well aware of the Dodgers' healthy 13-game edge on the decisive defeat side of the standings, refuses to concede a thing to Brooklyn and New York. "We're still got an outside chance for the pennant," he said. "We're going good right now. There is no reason why we shouldn't continue. We picked up four games on the Dodgers in a little over a week. And we're going to pick up more ground. This race isn't over by a long shot."

Stanky's optimism was based on the fact that his team has shown it can beat the Dodgers. The Cards hold a 6-5 record over the league leaders. Only the Giants have an advantage over them that by the narrow 7-6 edge.

Salas, who has had two previous well publicized cage fights in a year, fractured nothing but the air with his punches.

Guzman came out with a bloody lip, he hit it somehow.

OUT OF DOORS with Field & Stream

Beware Those Smoothbores!

By WARREN PAGE
NEA Shooting Editor
I wish I knew just how many assorted shotguns have been carted back to this country by souvenir-minded GIs. Thousands of them are kicking around, good, bad and indifferent. Nary a batch of mail comes to my desk without question as to makers, or values, or the safety of these muskets.

Now any gun is worth just what you can get for it, no more, no less. This applies to the

flimsily imported foreign field gun just as it does to the second-hand standard-grade Winchester or Remington at the local gun shop. And a great many of these European smoothbores were made by little known custom gunsmiths. But there are a few simple rules about their safety factor with our ammunition.

First, if that pretty gun has a spiraling pattern running around the barrels, it has Damascus tubes. That means no dice with any of our factory fodder. You have a souvenir. Your eyes and your left hand are your own if you want to risk a blow-out, or worse, but by me a Damascus-barreled job is a wall decoration only.

Second, many foreign-built shotguns of pre-1940 vintage, particularly those in 16-gauge, are made with short chambers. All U. S. made shotguns turned out since the early twenties are chambered to handle shells that open out to 2½ inches, fired length.

Many of the French, German, and Belgian-built field pieces were made to handle hulls of only 2 9/16-inch fired length. Using our longer shells in them means that the lips of the cardboard case unfurl part way into the forcing cone, which is the squeeze-down just ahead of the chamber proper. Pressures are built up by some 15 per cent, possibly higher; and the result may be grief.

Get a foreign shotgun? Take off the fore-end, slip the barrels off the breech. On the flattened undersides you'll find marks.

European 70 are of proper chamber length for 70 mm. or 2½-inch hulls. Those marked with 65, or 65 or 70, are chambered for the shorter hulls, 2½ to 2½ inches fired length.

All of the "pie crimp" shot shells made today, the hulls without an over-shot wad, open out to 2½ inches. Does that mean that to your engraved Belgian 16-gauge marked 65 for chamber length must be thrown out? Nope. There are two possible answers.

One, top-drawer gunsmiths can ream those chambers properly—and they are also capable of deciding whether there's enough metal in that light 16 to make such a chamber-lengthening job safe.

Two, in that gauge both the Winchester-Western and Remington-Peters outfits load some shells with the old type of over-shot wad and crimp with rolled-edge. These are 2 9/16. And Federal, which uses the roll crimp but a disintegrating wad over the shot, loads all theirs to 2 9/16 inches fired length. So you aren't as badly off as you thought you were.

Illinois Delegates Are Still Behind Taft; Dirksen Plea Fails; Stratton Is Leaning

By RUSSELL LANE
CHICAGO (AP)—Calculations of Illinois' pro-Taft Republican leaders were scrambled badly today as the result of last night's Eisenhower gains in the bitter, convention seating contests.

The state's 59 to 1 vote against seating a 17-member Eisenhower slate for Georgia had no effect in stemming a surge which ousted the pro-Taft Georgia faction, 607 to 531.

Not only was the heavily Taft-favored Illinois strength pitted in the bitter Georgia floor test, but the high-power oratory of Illinois' Senator Everett M. Dirksen was unleashed.

Stirs Up Storm
Dirksen's plea for convention support of the earlier decisions of the Republican national committee and the convention's credentials committee in the Georgia matter stirred up a storm in every corner of the big Amphitheatre.

Some members of the Illinois group left the convention hall before the voice vote which gave Eisenhower forces a ringing victory in the Texas contest early this morning.

The decision by Taft forces not to fight out a rear guard action on the Texas dispute was a straw in the wind of the subsiding tempest.

Dirksen Plea
The Georgia delegation ballot was a stinging rebuttal to Dirksen who singled out the Pennsylvania delegation and Gov. Thomas E. Dewey in his remarks—"I've stood with you, and I say to you, search your hearts again. Don't let this thing go lightly."

"When my friend, Tom Dewey, was the candidate in 1944 and 1948, I tried to be one of his best campaigners."

"And ask him if I didn't go into 18 states for him."

Then, addressing the New York governor directly, Dirksen said, "I followed you before and you took us down the road to defeat."

Fight Begins
At this point, temporary Chairman Walter S. Hallinan had to rap for order, and a fist fight broke out in an aisle of the convention floor.

Dirksen told the convention that if it sat the Eisenhower faction from Georgia, the effect would be a declaration to the "voters of America—we have a national committee, but they are not trustworthy."

The crucial vote on the Georgia delegation brought an immediate prediction by Senator Lodge of Massachusetts of an early ballot nomination for General Eisenhower. Joy over the result of the ballot was unrestrained among Eisenhower backers.

Illinois Said
The effect on Illinois delegates was opposite, although most of them refused to let themselves admit that it was a thumping setback for Taft.

It was possible that pressure from the Eisenhower camp might bring about a second caucus vote on the presidential nomination stand of the Illinois delegation.

The 59 to 1 majority for Taft was confirmed in a caucus in the La Salle hotel, delegation headquarters, before Wednesday's convention sessions. The one Eisenhower vote was that of Henry A. Schwartz, Belleville lawyer, who was elected as an Ike supporter.

Dirksen said he is still confident that a second caucus poll would not shake the delegation's determination to cast 59 votes for Taft on the first ballot, and to stick with the Ohio senator on succeeding ballots, if necessary.

Some Lean to Ike
However, other members of the delegation said they would not mind being on the bandwagon of the winner, even if it turns out not to be Taft. William G. Stratton, to be Taft.

IKE RUNS OUT OF GAS—Eisenhower supporters hope the general's campaign won't collapse like this balloon that ran out of gas when it was removed from the Hilton hotel in Chicago.

vice-chairman of the delegation and GOP nominee for governor, has visited Eisenhower since the general came to Chicago for the convention.

Stratton took a firm stand against any move to bind the Illinois delegation beyond the first ballot. Stratton, now state treasurer, has a reputation for rambunctiousness as far as conforming with GOP state organization plans is concerned. He bucked the state organization once and won election as congressman-at-large handily.

Declines Discussion
Stratton has declined to discuss his views on strategy should Taft appear weaker than his advertised strength on the first ballot. But, he has made it plain he is not at all averse to supporting Eisenhower if Ike is a winner.

NOSE PLINY
The Roman polyhistorian, Pliny, lost his life through his zeal for investigation. He was killed while attempting to approach the crater of Vesuvius to make a study of the workings of a volcano during eruption.

Big 3 Sends Another Note To Russia

WASHINGTON (AP)—The United States, Britain and France are expected to propose to Russia today an exploratory meeting looking to a Big Four conference on Germany.

Russia has been pressing for a Big Four meeting for the past four months.

Diplomatic sources said a new note, the sixth in an exchange, has been drafted by the Western Powers and may be delivered to the Soviet Foreign Office today.

It is said to propose a meeting of representatives of the four powers occupying Germany on the makeup of an international commission to decide whether free elections can be held in all sections of divided Germany.

The Western Powers are insisting that a peace treaty can be negotiated only with an independent all-German government formed on the basis of a free election.

Man Pawns Plates

ATLANTA (AP)—Police are wondering how one toothless victim of economic adversity is making out.

Records of pawnshop transactions showed that a man pawned an upper plate for \$3. The next day he returned to the same shop and pawned the lower one for another \$3.

Construction Is Started on Six Classrooms

FRANKLIN GROVE — Ample funds are available for the new building being constructed at Franklin Grove to replace the Franklin Grove school which was destroyed by fire, the board of education of District 271 announced today.

The building is to replace temporarily the one lost by fire last December.

Construction will not require a bond issue, the board said. The building will be financed by district funds including insurance from the school building destroyed by fire.

The new building, situated on the school grounds, will have six classrooms and be 50 by 80 feet. The type of building is popularly known as a Butler inepticot building and is of steel.

Every effort is to be made to have the building ready for use by start of the fall school term.

The new building will eliminate renting a church basement that has been used for school facilities. Plans also are being made to use nearby rural schools to help relieve the congested school facilities at Franklin Grove.

The board of education said it is continuing plans for selection of an architect to develop a building program for the school district.

Many of the legal difficulties besetting the district have been removed since the Franklin Grove detachment committee recently withdrew all petitions requesting detachment from District 271, the board stated.

Ashton Employs Village Marshal

ASHTON — Paul Greenfield has been hired by the village board as a marshal. He will work with William Bowers and also provide night protection for the village.

Motor Fuel Tax Allotments Made For Last Month

Lee county has received \$13,618 as net allotment of motor-fuel tax paid during June, it was announced today by Joseph Poir, director of the state department of finance.

A total of \$2,690,878 has been allotted to Illinois counties from the June tax.

Amounts allotted to nearby counties were as follows:

Ogle, \$15,609; Whiteside, \$21,351; Winnebago, \$56,470; Stephenson, \$15,693; Bureau, \$16,881; and DeKalb, \$18,402.

Pawpaw Lions Club Installs New Officers

PAWPAW — Officers for 1952-53 were installed at the last meeting of the Pawpaw Lions club and nine members were presented 50-year pins.

Officers installed:

New officers not present were E. F. Mahanah and Edgar Florscheutz, directors, and John Hawbaker, lion tamer.

Ray Yenerich is retiring president.

Stephen F. Helfer, of the Rochelle Lions club, spoke at the meeting on civil defense.

SLAUGHTERED CHILDREN

King Herod ordered the slaughter of all children two years old and under in Bethlehem for the purpose of destroying the infant Jesus who he feared, would reign as King of the Jews in his stead.

Ogle Board Rejects Fire Squad Bill

OREGON — The Grand Detour fire department has been informed by the Ogle county board of supervisors that the county budget does not supply funds for rescue work.

The fire department had submitted a bill for \$205 to the board for service given by the fire squad when four Chicago men drowned near Grand Detour in June.

The board, however, has appointed a committee to investigate buying and equipping a boat to be used in river rescue work in Ogle county.

At its meeting Tuesday night the board also voted 17 to 5 against a request by county tavern operators to permit opening of taverns on Sunday. Other business included requesting bids for a new car for Helen Slomick, county nurse.

Steward Notes...

STEWART — The girls of the World Friendship group will meet Tuesday evening at the home of Beverly Hays instead of as previously scheduled.

Dewey-Taft Bitterness Is Breaking Out Once Again

By JAMES MARLOW

CHICAGO —(AP)— The deadly bitterness between the rival factions in the Republican convention exploded all over the place Wednesday night. And when the debris stopped falling Sen. Taft had lost another, perhaps the vital, battle with Gen. Eisenhower.

The blast was set off by Sen. Dirksen of Illinois with a personal attack on the convention floor against Gov. Dewey, one of the most efficient backers of Eisenhower. Dirksen is such an ardent supporter that he has been known to put the senator's name in nomination late today or possibly Friday.

Taft Scorns Dewey

During his campaign to win the Republican nomination Taft has repeatedly spoken scornfully of Dewey who twice himself had won nomination, once beating Taft out of it, but had lost both times to the Democrats in the elections. He divided what he called the Dewey "me, too," campaigns.

Dewey's 96 New York delegates have been one of the main convention prizes. They seem lined up almost solidly with Dewey for Eisenhower.

More than that, Dewey and Herbert Brownell, twice the main prize in getting Dewey his nominations, have worked behind the scenes for the general. Dewey and Brownell are credited with being two of the best wire-pullers in the business.

Lines Up Votes

Dewey hasn't spent much time attacking Taft personally. He's used his energy to wound Taft where it most likely would be fatal: By lining up votes against him.

On Monday, the convention's opening, 85 of the 96 New York delegates, headed by Dewey, voted for a move by the Eisenhower forces which was successful. This was the vote not to let delegates dispute vote on other disputed delegates.

That was the first test of strength between the Taft-Eisenhower forces and Eisenhower won. The result was a stunning blow to Taft. In the two days that followed, Dewey and Brownell had more time to damage Taft behind the scenes by try-

ing to swing still-uncommitted delegates to the general.

Personal Attacks

At any rate Wednesday afternoon public attacks on Dewey began in earnest. A loudspeaker blared through the Chicago streets: "Dewey is full of Hooley" and "Hooley on Dewey" and "Dewey Wants to be President by Proxy"—another way of saying the general is a Dewey stooge—and "Poor Blind Ike" sung to the tune of "Three Blind Mice."

This attempt to discredit Dewey and Eisenhower reached its peak with Dirksen when the convention began its session Wednesday night. It was preparing to vote on whether pro-Taft or pro-Eisenhower delegations from Georgia and later Texas should be seated and permitted to vote on the presidential candidates. In tight balloting the Georgia and Texas votes could swing the nomination.

Dirksen Pleads

Dirksen pleaded with the convention—or at least those delegates who hadn't already made up their minds—to vote pro-Taft. He spoke soothingly—about principle, party loyalty, the need for party unity, respect for tradition. Suddenly he abandoned this sweet approach, turned toward Dewey who was with his other 96 New York delegates, and heaped scorn on him: "We followed you before and you took us down the road to defeat."

If the suddenness and nature of this attack shocked or revolted some of the delegates for others it unleashed either personal dislike for Dewey, anger at him for helping Eisenhower, or their own frustration built up over years of successive defeats.

Boo Dewey

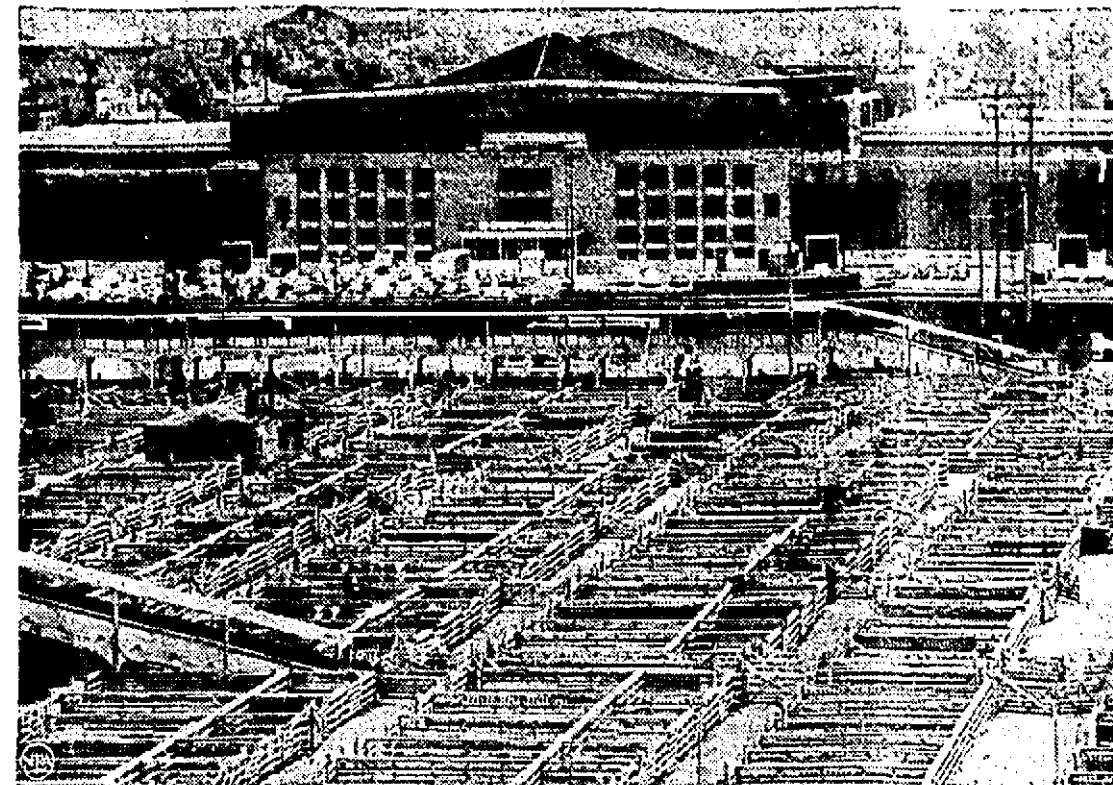

They booed Dewey, who twice led them to defeat.

As the booing grew it was not clear whether boos were all against Dewey or partly against Dewey and partly against Dirksen. That may have been the end of his speech anyway. Whether it was or not, Dirksen ended it fast after that.

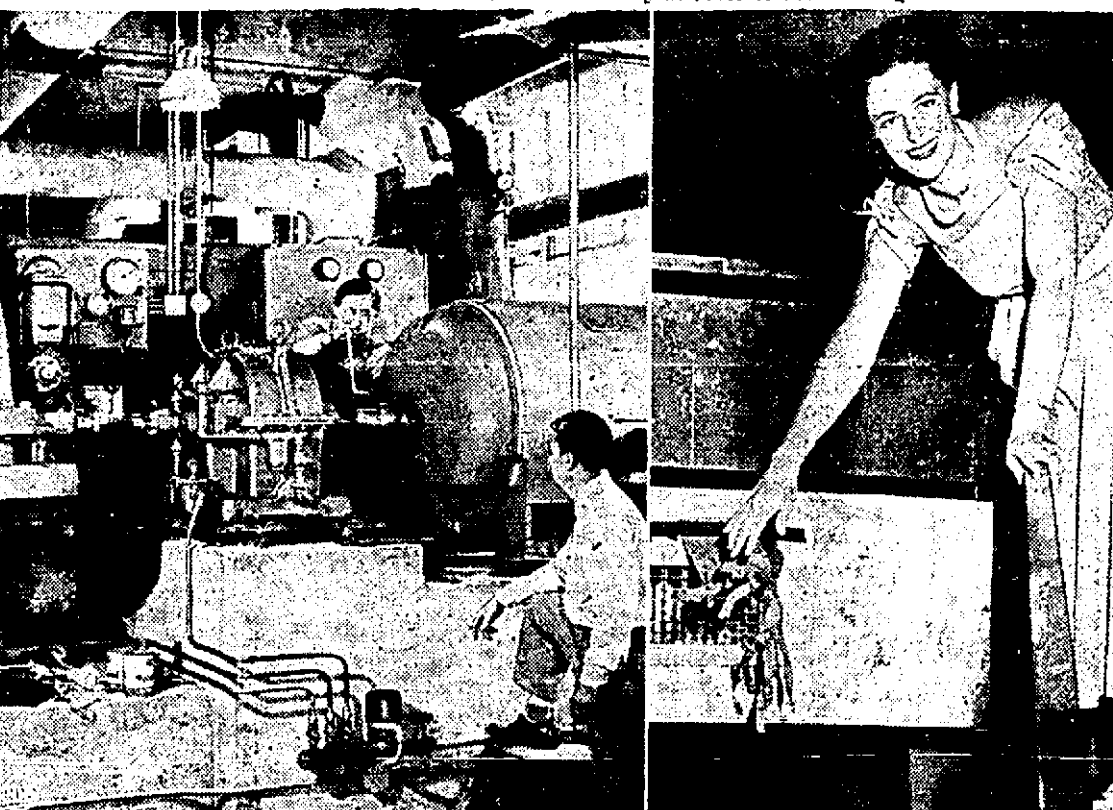

The voting began. Taft lost. Now Taft and Eisenhower face the vote on the nomination, with pro-Eisenhower delegates from Georgia and Texas sitting where pro-Taft men might have sat if the majority of the convention hadn't decided otherwise.

Cool, Fresh Breezes for Convention Delegates

Delegates to the Republican and Democratic National Conventions may get hot under the collar, but it won't be because of Chicago's 13,000 stockpens, nearby, permeate the Convention Building and International Amphitheater. Building officials have installed a \$500,000 air-conditioning unit which is designed to keep the air fresh and sweet, and 15 degrees cooler than outside. Despite protestations from stockmen who say sanitary precautions eliminate any barnyard odor, it is said that once or twice in the past, before air-conditioning, there was a slight taint in the air.

Chicago's International Amphitheater is not quite this close to stock pens, but close enough. Long-lens shot makes them seem to be nearly at doors of the building.

Delegates to the Republican and Democratic National Conventions will have cool, fresh air supplied by \$500,000 air-conditioning unit, left. At right, Marian Giesel tests unit's output.

50-and-Over Golf Tourney Opens Today

CHICAGO —(AP)—Two hundred golfers, 50 years old and over, from 28 states will tee off today in the opening round of the two-day Western Seniors Golf Association tourney.

Six age brackets are listed for the 36-hole medal play meet, including 50-54, 55-59, 60-64, 65-69, 70-74 and 75 or over.

James McAlvin of Chicago is the defending all-tourney champion, posting the best medal of all classes last year.

The field also includes Chick Evans, Chicago's perennial amateur; Gabby Hartnett, former catcher and manager of the Chicago Cubs; and band leader Fred Waring.

Infant Born to Amputee, Wife, Dies in Hospital

JOLIET, Ill. (AP) — The two-day-old daughter of Pvt. Hubert Reeves, 20, quadruple amputee of the Korean war, died early today.

The baby weighing 3 pounds, 6 ounces, was born two months prematurely Tuesday to Mrs. Reeves, 19, the former Beverly Jean Hall. It had been kept in an incubator since birth.

The baby was expected in September.

Reeves lost parts of all four limbs after he was captured by the Chinese and left for dead on a Korean battlefield in the winter of 1950-51. His hands and feet were frozen and the amputations have been made in a series of operations.

He still is under treatment at Hines Veterans hospital near Chicago.

The Reeves were married Sept. 9. They live in Wilmington, 15 miles south of Joliet.

IT'S ALWAYS THAT WAY—Sgt. Donovan A. Dutton, of Boulder City, Nev., plays the piccolo in the First Marine Division Band in Korea, and he's a strapping six feet, seven inches tall. Pfc. Eugene J. Leskanen, of Linden, N. J., is the smallest member of the band, and he draws the Sousaphone for his instrument. Leskanen was all out of breath from blowing the big horn, and couldn't tell his exact size.

Television Cameras Making Husbands Behave, Is Claim

BY RUTH COWAN

CHICAGO—(AP)—Apparently television is succeeding at what wives and mothers have been trying to do since conventions began—get their menfolk to behave.

With the proceedings at the Republican National Convention being televised, no delegate, visitor or speaker can be sure the camera isn't on him, flashing his image on a screen back home.

The result is that men are keeping their coats on and women their noses powdered. Of course, the air conditioned amphitheater helps. But even so the sessions are dressed up—and sober.

Carnival Spirit

There is a carnival spirit—bands, songs, gag hats, outsized campaign badges, posters on sticks—but the scarcity of conventioners "with a wee bit too much" is becoming a subject of comment.

A check at the first aid station in the Convention Hall disclosed

that very few delegates or visitors are seeking the traditional remedies for that morning-after feeling.

"There just doesn't seem to be much drinking so far," said an attendant.

For the first time there are five women sergeant-at-arms. At first it was feared women might not be able to handle "the problem cases"—but the latter have failed to show up.

Delegate Is 80

In the opinion of Mrs. Alice Roosevelt Longworth of Washington, D. C., and Mrs. Lewis Thompson, of Red Bank, N. J., who at 80 years old is the oldest delegate here, this convention is serious-minded and determined.

Women delegates and alternates at this convention set an all-time high. They number 380—an increase of 14 over the 1948 convention.

COP CARNIVAL TIME—Mrs. Robert A. Taft, still confined to a wheelchair after suffering a stroke, is escorted to a Taft Carnival at Al-Marsh Farm, Montgomery County, Md., by "Mr. Republican." The carnival, which attracted a large crowd, was held to raise funds for the Taft presidential nomination campaign.

Stuffed Pork Chops for Man of House

BY GAYNOR MADDOX

Ever hear of "essentially male" food? Norman Sorensen of Country Gardens, Wis., believes there are definitely "male" dishes. He's a professional canner of vegetables, a free-wheeling philosopher and a noted midwestern bachelor cook. Let's listen in on his recipes.

Stuffed Pork Chops (Serves 6)

Select rib pork chops 1½ inches thick. Have the butcher cut a pocket through the lean part to the bone of each chop. Stuff with cranberry dressing (below); fasten with skewers.

Brown the chops quickly on each side in a hot skillet. Place chops in a roaster and add ½ cup water. Cover and bake in a moderate oven for 45 to 60 minutes or until tender.

Cranberry Dressing

Celery, 2 outer stalks, 1 small onion, 1 sprig parsley, ¼ cup canned whole cranberries, 2 tablespoons butter, 1 cup bread crumbs, 1 teaspoon salt, pepper, a few grains, ½ teaspoon poultry seasoning.

Place celery, onion, parsley and canned whole cranberries in a chopping bowl; chop fine (or they may be put through a food chopper, but they should not be ground too finely).

Saute in butter a few minutes; combine with other ingredients. Makes enough stuffing for six chops.

Barbecued Spare ribs (Serves 4)

Combine 1 tablespoon celery seed, 1 tablespoon chili powder, 1 tablespoon salt, ¼ cup brown sugar, 1 teaspoon paprika, 1 cup tomato puree, ¼ cup vinegar.

Cut 2½ pounds of pork spare ribs into serving pieces. Dip the pieces in the barbecue sauce for basting ribs during roasting. Start roasting at 350 degrees and then reduce temperature to 300 degrees when ribs begin cooking. Keep at moderate oven until meat is tender.

I suggest serving baked potatoes with these barbecued ribs. Whole green beans are a delicious accompanying vegetable. When preparing the beans be sure to brown the butter slightly before putting it over the beans. Browning butter will give them a richer flavor.

HUGE CONTINENT

Antarctica is almost as large as South America and is higher above the sea than any other continent. It averages about 6,000 feet. The continent is about 9,000 feet above sea level directly at the South Pole.

Red China to Draft 5% For Armed Forces

By FRED HAMFSON

HONG KONG, (AP)—An order from Peiping says that five per cent of Red China's total population is going to be taken into the nation's huge armed forces—mainly in the militia.

The order says that in the new draft, physically able men from 18 to 35 are to be added to the militia as rapidly as possible.

42 Million Total

China's population is generally computed at 450 million. Five per cent of that would be 22½ million. Add that to the 12 to 16 million already in the armed forces and you get possibly 42 million.

It seems out of the realm of possibility for the Chinese Reds to maintain forces, even half-time militia, of that size.

Peiping probably will leave up to provincial and regional governments the amount of expansion their militia can stand.

Strength Not Known

The exact Chinese Communist military strength is not known. Estimates run up to 20 or 21 million. The Red army in the last 18 months was expanded by drafts upon the militia. It probably is between three and four million now.

Regional forces, which serve only in home areas, may run to two million.

Estimates on the militia run all the way from five to 15 million. Most observers think five or six million is correct.

The militia is made up of part-time soldiers. Not all of them are armed and some are poorly trained. Still more important, many have not been safely indoctrinated by the Communists.

Hearing Required Before Passport Ban Says Court

WASHINGTON—(AP)—A special Federal Court has ruled that a person is entitled to a court hearing on a State Department order revoking his passport.

The court yesterday rejected a government claim that issuance and rejection of passports are strictly within the province of the executive branch of government and may not be interfered with by the judiciary.

The decision applied specifically to Miss Anne Bauer, a freelance writer whose passport was revoked without a hearing last year while she was in Europe. The de-

Small Business Promised Aid in Republican Plank

CHICAGO, (AP)—The 1952 Republican platform being presented to the convention today promises small business new, lower tax laws and an end to government "hostility to initiative and enterprise."

The statement of principles was drafted by the Resolutions committee for convention action. In its sections on small business and taxation, it says:

"Merciless taxation, the senseless use of controls and ceaseless effort to enter business on its own account, have led the present government to unrestrained waste and extravagance in spending, irresponsibility in decision and corruption in administration."

End Hostility

It adds: "The Republican party will end this hostility to initiative and enterprise."

The statement says a GOP administration would "relentlessly" enforce anti-monopoly and unfair competition laws, but would help businessmen comply with them.

It opposed federal rent control except in critical defense housing areas. It pledged a fight against inflation by "encouraging full production . . . and not through a program of restrictions." And it pledged an end to "tax abuses and injurious price and wage controls."

Cut Spending

Calling for a sound economy, the proposed platform advocates cutting government spending by "elimination of waste and extravagance." It said this would lead to a balanced budget and general tax reduction.

It calls for a study of tax sources to avoid overlapping of federal and local levies, a revision of tax laws and revenue administration "free from politics, favoritism and corruption."

Eva Peron to

Take Complete

Rest, Report

BUENOS AIRES—(AP)—Mrs. Eva Peron, ailing wife of Argentina's President, is taking a complete rest for her health.

A government spokesman, announcing this last night, said doctors had described her condition as unsatisfactory.

There have been widespread but unconfirmed reports that Mrs. Peron was seriously ill. She underwent a major operation for an unspecified ailment in June, 1951, and since then has made few public appearances.

He'll Harness Shark for Trip Across Pacific

OCEAN PARK, Calif.—(AP)—Shark boat is a "comin'—and what a boat!"

Paul Chotteau, veteran long-distance swimmer, proposes to harness a blue shark to a contraption embodying a pair of pontoons and let the shark furnish the propulsion.

Chotteau swam 42 miles from Catalina Island to Malibu in 1938, and in 1940 had to quit 11 miles short of a 115-mile swim from Bimini, British West Indies, to Palm Beach. Now he's 54 and hankers to swim the Catalina channel that Florence Chadwick almost but not quite conquered last week.

Just how he'd harness the shark Chotteau doesn't say. He says he tried his idea, small scale, with a goldfish furnishing the power, and that it worked fine.

"But I don't even have a blue shark," he explains. "Getting one alive may take time."

Mother Fine But

Quads' Father

Put in Hospital

PORTLAND, Me.—(AP)—The father of four-day-old quadruplets was in the same hospital as his wife and babies today, the victim of frazzled nerves.

Silas Pinkham, 45, of Standish, was admitted as a patient when he visited Mrs. Elizabeth Pinkham, 35, and the quads—William, Rebecca, Melissa, and Jane—at the Osteopathic hospital last night.

Officials said mother and quads continued to do nicely but they said Pinkham was suffering from nervous exhaustion.

Family physician Stanley E. Rowe of Gorham ordered the carpenter to bed for two or three days' rest.

The name Winnipeg means "murky waters."

New Treatment of Burns Revealed by Scientists

By FRANK CAREY
WASHINGTON (AP)—Three Detroit scientists today reported tests pointing to quick new methods of diagnosing and treating severe burns.

Dr. John J. Prencergast and two associates of the Chrysler Corp. medical department reported in the Archives of Surgery that the test of burn severity centers around the blood protein called gamma globulin.

G. G. Increases
They said there is a great increase of gamma globulin (G.G.) in the blood of seriously burned patients, a very slight increase in

patients with minor burns. G.G. content can be determined by a new electrical test.

In the case of serious burns, they also found a decrease in the concentration of albumin—another blood protein—which suggested that improved treatment might call for transfusions of blood containing purified human serum albumin.

Gamma globulin first made major news as a measles preventative. More recently, there were indications it could help prevent infantile paralysis, and a major

Electronic Computers to Ease Secretary Shortage

BY SAM DAWSON
Electronic computers can figure in a few hours what a battery of clerks takes months to compute. Engineers say these machines soon may come into more general use in business due to new developments.

These developments could bring the mechanical brain down to a size and cost practical for businesses staggering under a mounting load of clerical work. The number of pencil pushers and typists has increased in the past 25 years out of proportion to the increase in factory workers. The expense is terrific.

Brain The Answer
Some companies see the mechanical brain as the answer. Already some 100 companies, large and small, are developing electronic computers. Walter Mitchell Jr., managing director of the Controllers Institute, says the machines may bring about "a major revolution" in office work.

One company already has a machine that keeps a complete record of 10,000 items of inventory. It is about the height and width of an office desk and can pass through a 30-inch door. It produces a type-written record of any item or group of items—as fast as the typewriter can pound it out.

Slashes Time
Other machines can produce through electronics in eight hours financial reports which consume 50 man-days to prepare by pencil pushing.

Paul G. Drescher, vice president

and controller of Associated Hospital Service of New York, points out that the important thing the machine will do for business is not the saving in clerical help, but the chance it gives businessmen to develop data once considered too hard and too expensive to get.

Electronic engineers, however, say you haven't seen anything yet, compared with what the machines they are developing will do for business.

Movies Get Lift

RANGOON, Burma — (AP) — Movie houses which exhibit foreign films exclusively may have to devote at least one week in each month to the showing of Burmese films, according to a government ruling.

The Burmese government is expected to introduce legislation in Parliament shortly making it compulsory to show Burmese films. The order is designed to bolster the local film industry.

Last year, exhibitors reported only 55 Burmese movies were made, 50 of which were silent productions. Against this, 699 American, 66 British, 138 Indian, 38 Russian and Chinese films were imported into the country.

Bosses Criticize

NEW YORK (AP) — The trouble with recent high school graduates employed by its member firms, says the Commerce and Industry Association of New York, is that their spelling is bad, their handwriting illegible, their arithmetic unreliable and they expect too much pay and too rapid advancement.

The survey was based on questionnaires filled in by executives of 165 firms about the aptitudes and job qualifications of 33,234 employees hired since 1947 with high school educations.

COOLING OFF AT POLITICAL CONVENTION—Despite the heat and the thought of a red-hot political battle, policeman Melvin Plunkett, surrounded by five bathing beauties, cools off in a three-ton pile of snow dumped at the west side of the International Amphitheater. The pile is a visual demonstration of how much snow would be required to cool the convention hall for about four minutes, if air conditioning wasn't being used for the first time at the nominating convention.

Serve California Salads

By GAYNOR MADDOX
Californians brag almost as much about their salads as about their climate. Caesar Salad is one of their most popular enthusiasms. It is served as a course by itself.

Caesar Salad
(Serves 8)
Prepare garlic-flavored oil by cutting 3 or 4 cloves of garlic into 1 cup olive oil. Let stand several hours at room temperature.

Prepare 2 cups crisp croutons (tiny bread cubes toasted in slow oven until browned).

Over 3 quarts salad greens in large bowl pour ½ cup each of unseasoned salad oil and grated Parmesan cheese, and ¼ cup Blue cheese. Add 1 tablespoon Worcestershire sauce, ½ teaspoon dry mustard, salt and pepper to taste.

Break 1 raw egg over greens and pour in ½ cup fresh lemon juice. Toss very thoroughly so that every leaf is coated with egg, seasonings, and cheese. Dip croutons into garlic-flavored oil. Toss with salad and serve at once while croutons are crunchy.

California Chef's Salad Bowl
One head Iceberg lettuce, 1 cup diced celery, 1 cup cooked ham, chicken or meat strips, 3 hard-cooked eggs, French dressing to taste, tomatoes for garnish.

Tear the cold, crisp lettuce into a large salad bowl. Toss with remaining ingredients. Serve in individual salad bowls and garnish with the fresh tomato wedges. Serves 4 as a main course for luncheon or supper.

Striped Tomato Salad
Remove stems from unpeeled to-

matoes and make four or five parallel cuts through each almost to the bottom. Put a generous spoonful of well-seasoned cottage cheese or a slice of cheddar cheese and a half strip of crisp bacon into each cut. Serve on thick slices of crisp Iceberg lettuce.

Wilbur Peeble Writes a Few Chicago Convention Comments

Editor's note: Wilbur Peeble, America's most average citizen, goes to the heart of the GOP problem in the following letter to his wife, Trellis Mae, from the Republican national convention:

By HAL BOYLE
CHICAGO (AP)—Well, honey, it looks like five stars over the White House—according to a waitress who sold me a hot dog at convention hall.

"Ike's in!" she told me happily, and generously passed out free mustard to the cre-fallen Taft supporters.

The story now is that General Eisenhower is doing so well that he is offering to deed the Texas delegates to General MacArthur in a package labeled: "Don't open until 1956."

Bob Taft is still in there pitching with both vocal chords, but most of the bystanders now seem to feel that the steam in his steam-roller is only going "112-2-2-2-2-2."

Ike's backers are so sure he'll be nominated and elected—that they are already picking his cabinet. I overheard one fellow at a bar say:

"Our problem now is to heal the party's wounds. Ike ought to name Thomas E. Dewey secretary of state, Warren secretary of the interior, Stassen postmaster general and MacArthur secretary of agriculture. Taft could be vice president."

"In that case we might as well make it a coalition cabinet and appoint Harry S. Truman secretary of the treasury," a bitter

Taft man said.

The question then arose about what to do with John Foster Dulles, and a fellow said:

"Why not appoint John Foster Dulles secretary of John Foster Dulles so there's be no doubt about his policy?"

It may be a bit early for the Ike fans to count Senator Taft out. Personally, I know of only one man who has turned in his Taft button and he explained it was only because he was having his suit pressed—and wanted it back right away if Taft is nominated.

The increasing likelihood that Ike will be the Republican nominee is very annoying to some members of the old guard GOP who refer to him as "the five-star Cinderella from Aboloney, Kansas."

"Dad it, we are always falling for glamor boys," one said. "I would rather run Herb Hoover again—if we can't have Taft. Let's be real Republicans."

A veteran Republican had this to say about the convention—and he shook his head as he said it:

"The trouble with us Republicans is that we've got too many leaders, and the Democrats—they've got too many people."

Well, Trellis Mae, more tomorrow from

Your homesick husband
Wilbur.

P. S. Rush more money. It costs 20 cents to launder a pair of socks here.

U. S. Is Cool To British Proposal

WASHINGTON (AP) — The United States reportedly is cool to a British suggestion that a team of political advisers be named to assist Gen. Mark Clark, supreme United Nations commander in Korea.

The State department is said to be against creating any formal new advisory group in the Far East theater at this time.

But top American officials told a reporter today they are considering closer liaison between Clark and the American ambassadors in Japan and Korea as a means of preventing military decisions that could result in world-wide repercussions.

Suggests Idea
Informed diplomatic officials said Britain's minister of state, Selwyn Lloyd, suggested the idea of a political guidance team when he talked with Secretary Acheson here several weeks ago.

Lloyd reportedly argued such a group, on which Britain would be represented, would make sure Clark and top American military leaders in Korea realized the full international implications of military decisions they might make.

A political guidance team, he felt, might have avoided the flare-up between Britain and the United States which resulted from American bombing of Communist power plants in North Korea without first notifying the British.

Already Adequate
The State department, it was learned, takes the view that adequate machinery already exists for providing Clark with all the political advice he needs. Clark is reportedly in close contact with Robert Murphy, American ambassador to Tokyo. Gen. James Van Fleet, military commander in Korea, is said to be in constant contact with John J. Muccio, American ambassador to Korea.

The problem as American officials see it is to make certain these contacts are used more frequently and efficiently.

Might Aid Reds
American officials object to the idea of a political advisory team because in their view:

1. It might give the Communists a chance to point to the move as proof the United States has been ignoring its allies in the Korean fighting and forcing its decisions upon them.

2. The new group might prove too cumbersome and unwieldy, and perhaps slow down execution of quick military operations.

GOP Courts Management And Unions

CHICAGO (AP) — Republicans today courted both unions and management with a proposed party platform containing kind words for the union shop and the Taft-Hartley law as well.

The platform draft was approved by the Republican convention resolutions committee and presented for convention action later in the day.

Its labor plank called for retaining the Taft-Hartley Act including the provision sanctioning the union shop. In a union shop, all an employer's workers must become union members and pay union dues.

The union shop is the major unsettled issue in the steel strike. Both the National Association of Manufacturers and the U. S. Chamber of Commerce — two major business organizations — had urged a ban on both the union shop and industrywide bargaining. Neither such ban is sought in the proposed platform.

The proposed platform urged adoption of "such amendments to the Taft-Hartley Act as time and experience show to be desirable." But no "desirable" changes were specified.

BACKS EISENHOWER—Gov. John F. Eisenhower, shown above at meeting of his state delegation at Convention hall in Chicago, has decided to support the Eisenhower presidential bid.

TO TAKE 9th WIFE—Millionaire Tommy Manville, 53, is shown with his ninth wife-to-be, dancer-writer Anita Roddy-Eden, 29, at City Hall in New Rochelle, N. Y., where they applied for a marriage license.

'We Must Move Slowly in Field Of Human Relations': Governor

SPARTA, Ill., (AP) —Gov. Adlai Stevenson of Illinois said Wednesday night that the people of his state must move ahead in the field of human relations but "slowly and with caution."

Quick Waffles Popular

QUICK WAFFLES made with pancake ready-mix offer an endless variety of meals, including this one served with chicken a la king.

By GAYNOR MADDON
Quick tricks with waffles are popular news. Made with a pan-

ham, nuts and chocolate. Shaved semi-sweet chocolate in this batter makes a perfect dessert waffle when served with ice cream and fruit.

Quick Waffles (5 servings)
Two cups pancake ready-mix, 2 cups milk, 1/2 cup melted butter, fat or oil, 2 eggs.
Place all ingredients in a medium-sized mixing bowl. Beat with a rotary egg beater until batter is fairly smooth. Pour batter onto a hot waffle iron. Bake until iron stops steaming.
Waffles are always good with butter and syrup, but they are also excellent supper or luncheon dishes with creamed chicken, eggs or vegetables. For porch or patio suppers build your menu around crisp corn meal waffles, top with creamed chicken and let outdoor appetites take care of the rest.
A fruit dessert or fresh strawberries and pineapple with iced tea to drink complete this summer meal designed for simple enjoyment on porch or terrace.

Salmon Loaf Has Caper Sauce

By GAYNOR MADDON

Here's a low-cost de luxe protein dish to add to your well balanced budget menus.

Salmon Loaf with Creamed Caper Sauce (4 generous servings)
One 1 - pound can salmon (2 cups), or 2 cups flaked cooked salmon, 2 cups soft enriched yeast-raised bread crumbs, 1 egg, well-beaten, 1/2 cup lukewarm water, 2 tablespoons non-fat dry milk, 2 tablespoons minced parsley, 2 tablespoons minced chives or scallions, 1 1/2 teaspoons salt, 2 tablespoons melted margarine or butter, 2 tablespoons lemon juice.
Drain salmon reserving liquid. Remove skin from salmon, then flake. Add reserved liquid, bread crumbs and next 8 ingredients; toss lightly with a fork. Turn into a greased 9x5x3 - inch loaf pan, smoothing the top.
Bake at 375 degrees F. (mod-

erately hot oven) 40 minutes or until firm when touched in the center. Meanwhile make creamed caper sauce. When loaf is done, unmold on heated platter and pour creamed caper sauce over the top.
Creamed Caper Sauce (4 servings)
Three tablespoons margarine or butter, 3 tablespoons flour, 1 teaspoon salt, dash pepper, dash paprika, 1 1/2 cups lukewarm water, 5 to 6 tablespoons non fat dry milk, 1/2 cup capers, drained.
Melt margarine or butter in double boiler top. Add flour, salt, pepper and paprika, stirring until well blended. Remove from heat. Add lukewarm water and sprinkle non-fat dry milk over water. Beat with rotary beater or wire whip until all dry milk is dissolved.
Place double boiler top over boiling water. Cook mixture, stirring constantly until smooth and thickened. Add capers and serve over salmon loaf.

Movie Industry Cares for Its Sick, Aged in Little-Publicized Paradise

HOLLYWOOD —(AP)— Some 20 miles from Hollywood and Vine, nestled in rolling hills at the far end of the San Fernando Valley, lies a little publicized paradise where the movie industry cares for its needy sick and aged.
The setting is a 60-acre tract of citrus and walnut groves. Its heart is a cluster of low, modernistic buildings surrounded by lawns, lily ponds and beds of dazzling flowers. The landscaping requires the attention of six gardeners.

Has 40 Private Rooms
For the sick there is a \$1,350,000 hospital and a convalescent home. The hospital has 40 private rooms, each fronting on a balcony overlooking a garden.

It employs a resident physician and has specialists on call. Patients are treated, without cost, for as long as necessary. Some have been under care for as long as eight years.

For the aged—minimum age is 60 for men, 65 for women—there is the Motion Picture Country House. No "poor house" this. Its 30 "guests" occupy private cottages, similar to those of luxury resort hotels. Like the hospital rooms, the cottages have picture windows fronting on gardens. They are comfortably furnished and have private baths and maid service. There are double cottages for married couples.

Food Wonderful
A central building contains a large library, a sumptuous, television-equipped lounge, and a dining room which serves food described recently by three visiting

Britishers as the best they tasted in this country.
The guests receive not only room and board but clothing, a weekly allowance, movies twice a week, station wagon service to Hollywood and occasional trips to town to see touring plays.

Guests are encouraged to live as they would in their own homes. There is no bar, but drinking in rooms is not frowned upon. Some tend private gardens. A few of the women sell needlework.

Names of the guests are kept confidential, but it is no secret that many well-known personalities of yesteryear have spent their final days in the home. Maurice Costello, matinee idol of silent films, died there. Current residents include writers, two once-prominent actresses, and a former leading man.

Both the house and the hospital are supported by the Motion Picture Relief Fund, which helps more than 7,000 film workers yearly. Hospital revenue comes from salaries in every branch of the industry. Those earning less than \$200 weekly contribute one half of 1 per cent, those earning more give 1 per cent. About 60 per cent of the industry is signed up, but any worker with four years of experience is eligible for aid.

Support for the country house

has come from the Screen Guild Players radio show, which had run 14 years until it left the air for good last month. Stars and studios had contributed services for the show. Its demise has thrown fund officials into a state of quiet consternation, but so far they have found no substitute source of income.

The relief fund is headed by Jean Herscholt, in his 16th year as president. Its principal activities are providing immediate medical care to the needy, and making loans to those in financial difficulties. It extracts a promise from the recipient to repay when he is able. The percentage of return, however, is low.

Drops Fool Ewe

NEW YORK, (AP)—A New York chemical company investigated the cause of a large order of nose drops from a Utah sheep herder.

The sheepman explained that a ewe ordinarily will refuse to nurse lambs not her own. He said he put the drops into the noses of ewes so they would accept and "mother" orphan lambs.

One drop, he said, made one small lamb seem much like any other, so far as the ewe's nose was concerned.

Film Suppressed

BEIRUT, Lebanon. (AP)— An anti-Jewish movie filmed in Germany has been banned in Lebanon even though the country still is at war with the Jewish state of Israel to the south.

The film, "Jude Suss," portrays a Jewish character who, by intrigue and treachery, gains control of an entire state. A Beirut theater asked permission to show the film here. The government board of censorship approved the film's showing, but the Ministry of Interior intervened and forbade its presentation.

Banning of the film is the latest in a series of actions whereby the Lebanese government has protected its Jewish minority.

ALL PUFFED UP—Jimmy Wingo, 5, of Atlanta, Ga., has a quiet smoke with his good friend Frank Wilson. Jimmy was given a cigar by his father, C. N. Wingo, at the age of two to cure him of picking up and smoking cigaret butts. No cure resulted, but the cigar business has a steadfast customer.

Special Paper Plates Save Time

FORGET THE DISHPAN and use specially treated paper plates that resist effects of hot food and are handy for full meals, picnics, snacks.

BY GAYNOR MADDON
Though the weather grows warm and the kitchen hot, one heat-generating kitchen activity that can be cut down on is dishwashing. To that end a handy supply of paper plates on the pantry shelf is the answer.

Paper plates are no longer just for picnics. They've had a facelift and have gone glamorous. They now take their place at table in Jonquil Yellow, Avocado Green, Paradise Blue and Petal Pink, in pretty printed patterns and in sizes that correspond with those of china.

There's the nine-inch size for entrees, the six-inch size for bread and butter and the seven-inch size for dessert and salad.

Paper plates have also gone versatile. There are paper plates that have been especially treated to withstand the rigors of hot food. We use them a lot in our house for bacon and eggs, for salad luncheons and often for a full hot dinner.

Then, there's the paper plate, with smooth, uncoated surface that's designed for those quick sandwich luncheons, youngsters' between-meal snacks, picnics, buffets and late-hour raids on the icebox.

On your specially treated paper plates, serve these:

Macaroni-Vegetable Salad (Makes 6 servings)
One tablespoon salt, 3 quarts boiling water, 8 ounces elbow macaroni, 1/2 cup French dressing, 1/4 cup finely chopped onion, 2 tablespoons chopped pimiento, 1/2 cup chopped celery, 1 cup freshly cooked or canned peas, 3 hard-cooked eggs, chopped; 1 teaspoon salt, 1/4 teaspoon pepper, 1/2 cup mayonnaise.

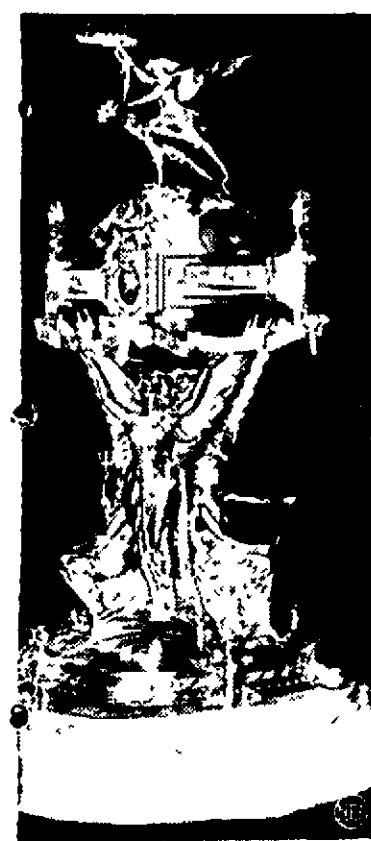

Add 1 tablespoon salt to rapidly boiling water. Gradually add macaroni so that water continues to boil. Cook uncovered, stirring occasionally, until tender. Drain in colander. Rinse with cold water; drain again.

In a large bowl, combine remaining ingredients with cooled macaroni; mix thoroughly but lightly. Chill several hours before serving.

Easy Marshmallow Chocolate Sauce (Makes about 1 1/2 cups sauce)
Two 1-ounce squares unsweetened chocolate, 1 cup water, 1/4 pound marshmallows (about 16 marshmallows), 1/4 cup sugar, dash salt, 1 teaspoon vanilla.

In a saucepan, combine chocolate and water. Cook over medium heat until chocolate is thoroughly melted and mixture has reached boiling point. Add marshmallows, sugar and salt; stir constantly until marshmallows are dissolved. Remove from heat and add vanilla. Cool sirup and pour into a clean jar. Cover and place in refrigerator.

To make chocolate milk, mix 1 or 2 tablespoons chocolate sauce with each glass of milk.

SPEED TROPHY—This handsome trophy, languishing in a London antique shop since 1938, could be claimed by this country, on the basis of the new SS United States' recent record-breaking trans-Atlantic run. When the Queen Mary set the previous record, in 1938, H. K. Hales, one-time member of parliament, offered the "Riband Bleue" trophy. The Cunard Lines turned it down, saying their policy was against "official" record crossing attempts.

Search for Killer of 2 Is Fruitless

PONTIAC, Ill. —(AP)— A widespread search of a large section of Illinois for the killer of two Pontiac men, was without success today. State police roadblocks and an intense quest by various city police of Pontiac and nearby cities failed to turn up a clue.

The man authorities are seeking is 27-year-old Richard Cox.

Police say he shot and killed two men friends of his divorced wife, Betty, 23, in a Pontiac restaurant Monday, then forced his ex-mate to go with him on a six-hour ride.

The former Mrs. Cox, a waitress in the cafe, was released at nearby Morris. She told police Tuesday: "We just drove around. He didn't talk much. He didn't make love to me. I tried to persuade him to give himself up, but he wouldn't."

Victims of what authorities say was Cox's love-crazed blasting were Lyle Patterson, 27, and Ray Juenger, 34.

Listeners Say Announcers Talk Too Much

NEW YORK, (AP) — Do announcers supplying fill-in commentary for a public event such as a political convention talk too much? Some folks seem to think so.

They cite instances where a voice from the speaker's rostrum is being fed into the broadcast circuits—both radio and television—at the same time that an announcer is attempting to offer home explanatory phrases. The result is a tower of babel effect, disconcerting to viewer and listener alike. The same effect has developed at baseball broadcasts when sportscasters try to out-talk the stadium public address systems.

Without specifying one case over another, it's been the same on all networks handling the Republican meeting out of Chicago. Announcers doing television at times seem to forget that the picture can often do a better job than any words. There is a tendency, too, to be repetitive.

Generally, though, the announcing has been of a quality to maintain interest even when the verbiage flow became overextended.

Meanwhile the radio-TV networks have arranged their schedules so that relays of the Republican convention can be continued through to the final adjournment.

Retired But Busy

DES MOINES, Ia., (AP) — Two men who have been ministers 50 years say retirement hasn't cut down much on their preaching.

They are the Rev. Peter Froberg of Brockton, Mass., and the Rev. J. E. Lorimer of Chappell, Neb. They and the Rev. A. T. Lundholm of Rock Island, Ill., were honored recently at the 83rd annual synod of the Augustana Lutheran church for 50 years of service to the church.

The Rev. Froberg says he retired in 1916, but hasn't missed a Sunday in the pulpit since. And the Rev. Lorimer says that since his retirement he goes wherever he is needed and has preached almost every Sunday.

The Rev. Lundholm is not retired. He is editor of The Augustana, Swedish bi-monthly newspaper in Rock Island.

FAST TRIP "UPSTAIRS"—Under the thrust of its eight jet engines, Boeing's YB-52 Stratofortress streams black smoke as it makes a fighter-like takeoff at Seattle, Washington. Note the four-piece wing flaps extended for the takeoff. Performance details of the long-range bomber remain in the "secret" category.

THEY'LL HEAR THAT GAVEL—Walter Fuss is making sure that delegates to the Republican National Convention in Chicago will hear the chairman's gavel over all the fuss and furor on the floor. He's installing the 10-foot oak, sounding post which will touch the floor of the convention hall and carry those rappings for order to all present.

THEY'LL ALL VOTE FOR LOBSTER—Republicans, and, later, Democrats, are expected to cast a heavy vote for "Lobster" while attending the nominating conventions in Chicago. Chief Vito Virgilio of the Palmer House readies some of his nominees for consideration by the hungry delegates.

FACES WIFE WITH TRIPLETS—Salvatore Scarnati faces wife, Mary, and their daughter, Mary Ann, in New York, after being named as the father of triplets born to another woman.

Egg, Milk Bread Is Nutritional

The Missouri experiment station of the U. S. Department of Agriculture has developed a new bread that has its whole pound weight packed with balanced nutrition. It's luscious news. Here it is in their own words.

Eggs and milk offer the nutrients needed to combine with enriched flour to make bread a balanced food. Here's a newly developed egg and milk loaf, aimed to carry its quota of vitamins, minerals and protein in proportion to its calories or fuel value.

This pound loaf was calculated to supply about half the daily food allowance of a moderately active man, with the exception of vitamin C. The recipe calls for no

synthetic vitamins or minerals.

Ingredients for the loaf made with dried eggs and milk are: 3 cups enriched flour, $\frac{1}{2}$ cup dried whole milk, $\frac{1}{2}$ cup dried whole eggs; 3 tablespoons margarine or butter, 2 tablespoons sugar, 1 cake compressed dried yeast, 1 teaspoon salt, 1 cup water.

To combine ingredients, first sift 2 cups of the flour with the dried milk. Add half cup of water to the dried eggs and beat slowly until smooth. Dissolve sugar and salt in a fourth cup of water. Soften yeast in the other fourth cup of water. Melt butter or margarine in a bowl over hot water.

Combine eggs, sugar, salt, yeast and butter or margarine. Add half

the flour-milk mixture and beat about 3 minutes. Add the rest of the flour-milk mixture and stir. Finally add the last cup of flour, half at a time, stirring after adding. Then knead, shape and bake, according to directions.

To make the bread with fresh milk and eggs, use: 4 cups enriched white flour, $\frac{1}{2}$ cup whole milk, 3 eggs, 3 tablespoons butter or margarine, 2 tablespoons sugar, 1 cake yeast, 1 teaspoon salt, no water.

To combine ingredients, sift flour before measuring. Scald milk, add sugar, salt and butter or margarine. Allow to cool to lukewarm, add yeast and beaten eggs. Add half the flour, and beat 3 minutes. Add the rest of the flour, half cup at a time, and stir after adding. Knead, shape and bake.

It's Automatic

NEW YORK, (AP) — A new mousetrap kills by electric shock that cannot be transmitted to humans because of its unique design.

The device, invented by A. G. Burns of Farmland, Ind., catches, slays and places the dead rodent's body in a drawer compartment. The drawer is removable for easy cleaning and eliminates handling the mouse.

The trap resets itself after each execution within a fraction of a second. The device is now being manufactured in volume. (Jalco Motor Co., Union City, Ind.)

1 Easy Godchaux Recipe gives you

FROZEN DESSERT and **4 SUMMER DRINKS**

No cooking — No heating because

Godchaux SUGAR (SAY GOD-SHAW) **IS FAST-DISSOLVING**

HERE'S WHY GODCHAUX MAKES IT EASIER

Godchaux Sugar is put through fine, fine sieves — to be sure you get *uniformly tiny grains*. That means Godchaux dissolves fast, with just a little stirring. (See how fast, when you make this recipe. Cuts down sugar waste in iced tea and coffee, too.)

TROPICAL ICE

Recipe makes 2 refrigerator trays. Serve part for dessert—keep rest frozen for kids to make into healthy drinks any time they're thirsty.

1 No. 2 can crushed pineapple and juice
2 cups mashed banana
2 cups orange juice
2 tablesp. lemon juice
1 cup Godchaux Granulated Sugar
Dash of salt
10 to 12 maraschino cherries, cut up fine

Combine ingredients, place in 2 refrigerator trays, freeze almost solid. Work with spoon (this makes the Ice smoother), or remove to bowl and beat with rotary beater or electric mixer to make fluffy. Freeze several hours.

Variation: Use 1 package Kool-Aid and 2 cups water in place of fruit juices.

KIDS! Look at these swell drinks you can make!

GINGER JIFFY
Spoon 2 or 3 big blobs of Tropical Ice into a glass, add ginger ale and stir.

COLA PUNCH
Stir up with the kids' favorite cola drink. (Adds fresh-fruit values, good nourishment.)

DAIRY DELIGHT
Just put 2 or 3 big spoonfuls in a glass, add milk and stir well.

FRUIT COOLER
Mix cold water and Tropical Ice half 'n' half. (Good for the small fry who like milder flavor.)

Godchaux Pure Cane SUGAR

EXTRA FINE Granulated **EXTRA FAST-DISSOLVING**
